A Conditional Use Permit for 22,649 square feet of pre-existing outdoor cannabis cultivation, and 2,200 square feet of ancillary propagation. Water for irrigation is provided by rain catchment from rooftops of three existing structures on-site. The applicant anticipates using 100,000 gallons of water per year (4.02 gal/sq.ft./yr.), and the applicant utilizes several water conservation methods on-site. A total of 160,000 gallons of water storage exists on-site in thirty-six hard sided tanks. Processing at the site includes drying and curing, and trimming will occur off-site at a licensed processing facility. There will be 2 employees on site for cultivation activities. Power is provided by two portable generators and will transition to full renewable energy sources by 2026. The Humboldt County Planning Commission will consider an Addendum to a previously adopted MND and has been prepared for consideration per §15164 of the State CEQA Guidelines.

A motion was made by Commissioner Levy, seconded by Commissioner Mitchell, that the Nikolai Erickson, Conditional Use Permit be approved as recommended by staff. The motion carried by the following vote:

The applicant is seeking a Special Permit for 10,000 square feet of existing full-sun outdoor commercial cannabis cultivation. One harvest is obtained annually. Water for irrigation was historically sourced from a registered spring diversion from Pine Creek, however, the applicant is transitioning to entirely rainwater catchment. The applicants projected annual water usage is 37,500 gallons. Water storage onsite totals 37,500 gallons. Processing such as drying and curing occurs onsite in an existing 770 square foot structure, further processing occurs offsite at a licensed third-party processing facility. The project is owner operated; therefore, no employees are required. The minimal energy required for the project is sourced from a generator however alternative energy will be required. - 6. Humboldt County Fair Association: Modification to Conditional Use Permit
Case Number PLN-2022-17561 (filed 12/29/2021)
Assessor Parcel Numbers (APNs) 030-071-001, 030-011-003, 030-021-003, 030-112-017, 030-112-020, 030-081-006, and 100-181-003
Ferndale area

Humboldt County Fair Association (HCFA) is seeking to modify a Conditional Use Permit which

authorizes five (5) concerts and two (2) motorcycle racing events to be held each year at the Humboldt County Fairgrounds. The approved permit places limitations on event-related noise levels, including a 63-decibel limit on composite noise measured by averaging noise readings collected during a 24-hour period surrounding each event, as well as a 90-decibel instantaneous noise limit applied to all motorcycles participating in racing events. In their modification request, HCFA is seeking authorization to raise the 90-decibel motorcycle noise limit to 99 decibels to be consistent with common national testing standards for competition established by the American Motorcyclist Association (AMA). Analysis of the proposal's effect on composite noise levels has been performed by Whitchurch Engineering and has determined that composite noise will remain at or below the 63-decibel limit, even with the requested increase. To help reduce event-related noise, HCFA is now proposing: 1. creation of two (2) sound barriers during racing events, fashioned by temporarily placing tractor trailers or strawbales (or some combination thereof) adjacent to motorcycle acceleration zones; and 2. acoustic treatment of the internal wall of the grandstands using special materials designed to decrease reverberation. Under the approved permit, each "event" occurs within the course of a single day, and concerts cannot last longer than 2 consecutive days. An additional day of racing can be allowed if all the racing on that day is by electrical motorcycles, but in no case can the total amount of motorcycle racing exceed 4 days per year. Other types of motorsports events are prohibited, including (but not limited to): Tractor Pulls, 4x4 Trucks, Go Carts, and Monster Trucks.

A motion was made by Commissioner Levy, seconded by Commissioner Mitchell, that the Humboldt County Fair Association, Conditional Use Permit Modification be continued to May 19, 2022. The motion carried by the following vote:

Aye: 6 - Commissioner Bongio, Commissioner Levy, Commissioner Mitchell, Commissioner Newman, Commissioner McCavour and Commissioner Mulder

G. PUBLIC HEARINGS

1. Nava Ranch, LLC: Special Permit
Record Number PLN-2021-17162 (filed 4/15/2021)
Assessor's Parcel Number (APN) 107-106-006
Honeydew area

A Special Permit for the expansion of an approved cultivation site (PLN-12657-SP). The project will consist of 43,560 square feet (SF) of mixed light cultivation in twelve (12) greenhouses and 2,500 SF of indoor cultivation in a converted barn. The original project consisted of 6,600 square feet of mixed light cultivation, 2,700 square feet of outdoor cultivation, and 2,500 square feet of indoor cultivation. The outdoor cultivation will be converted to mixed light and the total mixed light cultivation area will be expanded to one acre. This represents a total increase of 34,260 SF of cultivation area. The applicant hopes to achieve up to three (3) harvests annually. All water will be sourced by rainwater catchment from an existing pond, a proposed pond, and an existing rooftop rainwater catchment system. The estimated water needed annually for irrigation is approximately 550,000 gallons (11.94 gal/sq.ft./yr). Please note that this estimate may change to be more accurate prior to the hearing. The ponds will total approximately 1,050,000 gallons of storage, and twelve (12) 5,000 gallon tanks are proposed, for a total of 1,110,000 gallons of water storage. There is also one separate 5,000 gallon tank designated for fire suppression. Drying, trimming, and processing will occur onsite in the existing 900

SF storing, processing, and packaging building. Operations will utilize one (1) full-time employee, up to three (3) additional seasonal employees, and up to four (4) family members, totaling eight (8) laborers. There is a portable restroom facility on site for employees, and a cannabis support building is proposed with an additional septic system. Power is sourced from PG&E via a green energy program and there is an existing solar array onsite featuring six (6) panels with outputs of 235 watts each. There is a 25 kilowatt (kW) Whisperwatt generator kept onsite for emergency use only. This project is within 600 feet of Kings Range National Conservation Area, but the parcel has already been issued a setback reduction for cultivation and the setback would not require further reduction.

Total irrigation demand by Phase IV is anticipated to be approximately 3.1 million gallons per year, with the rain catchment pond being the primary source of water by Phases II and III. The project includes 8,000 sf of proposed and 2,000 sf of existing ancillary nursery space. Processing would occur onsite in a proposed 7,200 sf multi-use building in the footprint of a burned down barn. - 3. Old Arcata Road Rehabilitation and Pedestrian/Bikeway Improvements Coastal Development Permit Record Number PLN-2022-17654 (filed 02/28/2022)
Assessor’s Parcel Number: County right-of-way does not have APNs. Adjacent APNs include but not limited to 501-012-012, 501-031-032, 501-011-006, and 501-031-031.
Bayside area

A Coastal Development Permit (CDP) for the small portion of the project that is located within the County’s jurisdiction of the Coastal Zone. The project would improve motorized and non-motorized transportation and user safety in Bayside. The Project would repave Old Arcata Road, include bike lanes on both sides of the roadway alignment, and improve and extend an existing shared use walkway along the west side of Old Arcata Road from approximately 600 feet south of the Buttermilk Road Roundabout and extending south to approximately 300 feet beyond the Jacoby Creek Road intersection. The total Project length is approximately one mile. The portion of the project within both the Coastal Zone and the County’s jurisdiction is located at the southern end of the project, is approximately 530 feet in length, and includes a portion of the proposed roundabout. As a Responsible Agency, the Humboldt County Planning Commission will consider the final EIR (SCH #2021010176) that the city of Arcata approved, per §15096 of the State CEQA Guidelines.

Public comment period on the continuation of the project to a special meeting on May 12, 2022 opened and closed.

A motion was made by Commissioner McCavour, seconded by Commissioner Mitchell, that the Old Arcata Road Rehabilitation and Pedestrian/Bikeway Improvements Coastal Development Permit be continued to a special meeting on May 12, 2022. The motion carried by the following vote:

Aye: 6 - Commissioner Bongio, Commissioner Levy, Commissioner Mitchell, Commissioner Newman, Commissioner McCavour and Commissioner Mulder

- 4. PG&E After-the-fact Coastal Development Permit Record Number PLN-14376-CDP (filed 09/24/2020)
Adjacent to Assessor’s Parcel Number (APN) 517-041-016
Trinidad Area

An after-the-fact Coastal Development Permit which includes modification of an existing electric distribution facility previously constructed without permits. Proposed modifications to the facility consist of the following: removal of one 45-foot-tall utility pole, replacement of two 45-foot-tall utility poles with 55-foot-tall poles, installation of a new 55-foot-tall pole and 3 platform mounted voltage regulators. The poles were installed within the County right-of-way and near the driveway that serves parcel 517-041-016. An existing utility pole is located 8-feet south of the existing driveway and will remain in place. The design standards for allowable pole sizes for platform mounted voltage regulators has changed to a 55-foot-tall pole, while the previous standards allowed for a 45-foot-tall pole, driving the need for the height increase of the existing facility. PG&E is proposing to install three (3) 55-foot-tall poles in accordance with these standards. These new poles would be 10-feet taller than the existing 45-foot-tall poles. Additionally, the height of the conductor and distribution line would change from 39-feet to 47-feet. The voltage regulators and other equipment will remain at approximately the same height. The development does not qualify for the repair and maintenance exclusion under Coastal Act Section 30610(d) because the new poles are an expansion of the existing pole layout that supports the existing electric distribution line. No major vegetation removal occurred as part of the installation of the existing poles. The Humboldt County Planning Commission will consider the project which is exempt per §15303(e) of the State CEQA Guidelines.

Public comment period on the continuation of the project to a special meeting on May 12, 2022 opened and closed.

A motion was made by Commissioner McCavour, seconded by Commissioner Mitchell, that the PG&E After-the-fact Coastal Development Permit be continued to a special meeting on May 12, 2022. The motion carried by the following vote:

Aye: 6 - Commissioner Bongio, Commissioner Levy, Commissioner Mitchell, Commissioner Newman, Commissioner McCavour and Commissioner Mulder
