

Humboldt County, California

Fiscal Year 2022-23 Appropriations Limit Calculations

**Article XIII B of the California Constitution and California Government
Code Title I, Division 9 (Commencing with Section 7900)**

Gann Limit Summary

In November 1979, California voters approved Proposition 4 (the Gann Initiative) and added Article XIII B to the California State Constitution. In 1980, the State Legislature added Division 9 (commencing with [Section 7900](#)) to Title I of the Government Code to implement Article XIII B. This legislation required the governing body of each local jurisdiction in California to establish an Appropriations Limit (also referred to as the GANN Limit) on or before June 30 of each year for the following fiscal year. The Appropriations Limit is based on actual appropriations during the fiscal year (FY) 1986-87 and adjusted each year using population and inflation factors.

On June 5, 1990, California voters approved Proposition 111, amending Article XIII B. Proposition 111 allows local jurisdictions to choose among measures of inflation and population growth to compute the adjustment factor. The measures for inflation (price factors) include growth in California per capita income or growth in the county's gross assessed valuation due to new non-residential construction; while measures for population growth include population growth within the county, county and contiguous counties or all cities within the county.

The proposed Appropriations Limit for Humboldt County for FY 2022-23 is \$234,822,887. In accordance with Proposition 111 guidelines, the FY 2022-23 Tax Appropriations Limit was calculated by adjusting the prior year's Appropriation Limit using the adjustment factors described in Government Code Section 7901. The alternative adjustment factors applicable to FY 2022-23 are shown on page 1-2 of the attached calculations. The recommended adjustment factor was calculated using the price factor based on the percent change in State per capital income (7.55%) and the population factor based on the percent growth in the incorporated portion of the county (-.15%), resulting in an adjustment factor of 1.07548.

The Appropriations Limit does not apply to all county revenues, or all General Fund revenues, but only to proceeds of taxes including property tax, sales tax, transient occupancy tax, and other local taxes. Excluded from the appropriations subject to the limit are costs required to comply with court or federal mandates, qualified capital outlays and debt service costs for qualified capital projects. Other revenues, including fees, licenses and permits, rents and concessions, interfund transfers and state funds provided for a specific purpose are not subject to the limit. Charges for services or fees cannot exceed the cost of providing the service or regulation and thus are also excluded. The appropriations subject to the limit total \$86,024,795; \$148.8 million below the calculated appropriations limit of \$234,822,887.

GANN LIMIT CALCULATIONS

Fiscal Year 2022-23 Alternative Adjustment Factors & Calculation of Tax Appropriations Limit

Price Factor (A)

Percent growth in State Per Capita Personal Income.

(Source: California Dept. of Finance, Price Factor and Population letter dated May 2022)

Price Factor = 7.55000

Price Factor converted to Adjustment Factor = $(\text{price factor} + 100)/100$

Adjustment Factor (A) = 1.07550

Price Factor (B)

Percentage change in the local assessment roll from the preceding year due to the addition of local nonresidential new construction.

(Source: Humboldt County Assessor Proposition 111 Report)

(a) Prior year total secured and unsecured assessment roll value = \$ 14,939,122,497 FY 2020-21

(b) New nonresidential construction value = \$ 29,102,994 FY 2020-21*

Price Factor = b/a 0.00195

Price Factor converted to Adjustment Factor = $(\text{price factor} + 100)/100$

Adjustment Factor (B) = 1.00002

**The Humboldt County Assessor has not completed the Proposition 111 FY 2022-23 Report, so nonresidential construction is unavailable. For comparison purposes only the FY 20-21 value is used, however this inflation price factor is not used in the Limit calculation because the construction value would need to exceed the average value for the last three years by a factor of at least 40 times.*

Population Factor (C)

Percent growth in population within the county combined with population growth in all counties having borders contiguous to the county.

(Source: California Dept. of Finance, Price Factor and Population letter dated May 2022)

Percent growth in counties population = (0.00289)

Population Factor converted to Adjustment Factor = $(\text{population factor} + 100)/100$

Adjustment Factor (C) = 0.99997

Population Factor (D)

Percent growth in population within the incorporated portion of the county.

(Source: California Dept. of Finance, Price Factor and Population letter dated May 2022)

Percent growth in cities population = (0.00151)

Population Factor converted to Adjustment Factor = $(\text{population factor} + 100)/100$

Adjustment Factor (D) = 0.99998

Fiscal Year 2022-23 Alternative Adjustment Factors & Calculation of Tax Appropriations Limit (continued)

Population Factor (E)

Percent growth in population within the the county.

(Source: California Dept. of Finance, Price Factor and Population letter dated May 2022)

Percent growth in Humboldt County = (0.00226)

Population Factor converted to Adjustment Factor = (population factor + 100)/100

Adjustment Factor (E) = 0.99998

Annual Adjustment Factors

Based on the actual data, the six alternative adjustment factors are as follows:

| | | | | | |
|---------|---------|---|---------|---|----------------|
| A x C = | 1.07550 | x | 0.99997 | = | 1.07547 |
| A x D = | 1.07550 | x | 0.99998 | = | 1.07548 |
| A x E = | 1.07550 | x | 0.99998 | = | 1.07548 |
| B x C = | 1.00002 | x | 0.99997 | = | 0.99999 |
| B x D = | 1.00002 | x | 0.99998 | = | 1.00000 |
| B x E = | 1.00002 | x | 0.99998 | = | 1.00000 |

The recommended limit is (A x C), which results in a 7.548% increase over the fiscal year 2021-22 Annual Tax Appropriations Limit. Of the six adjustment factors listed above this represents the largest allowable increase to the appropriations limit.

Calculation of the Fiscal Year 2022-23 Appropriations Limit:

(Prior Year Limit) x (Recommended Adjustment Factor) = New Limit

$$218,342,402 \times 1.07548 = \$ \underline{234,822,887}$$

May 2022

Dear Fiscal Officer:

Subject: Price Factor and Population Information

Appropriations Limit

California Revenue and Taxation Code section 2227 requires the Department of Finance to transmit an estimate of the percentage change in population to local governments. Each local jurisdiction must use their percentage change in population factor for January 1, 2022, in conjunction with a change in the cost of living, or price factor, to calculate their appropriations limit for fiscal year 2022-23. Attachment A provides the change in California's per capita personal income and an example for utilizing the price factor and population percentage change factor to calculate the 2022-23 appropriations limit. Attachment B provides the city and unincorporated county population percentage change. Attachment C provides the population percentage change for counties and their summed incorporated areas. The population percentage change data excludes federal and state institutionalized populations and military populations.

Population Percent Change for Special Districts

Some special districts must establish an annual appropriations limit. California Revenue and Taxation Code section 2228 provides additional information regarding the appropriations limit. Article XIII B, section 9(C) of the California Constitution exempts certain special districts from the appropriations limit calculation mandate. The code section and the California Constitution can be accessed at the following website: <http://leginfo.legislature.ca.gov/faces/codes.xhtml>.

Special districts required by law to calculate their appropriations limit must present the calculation as part of their annual audit. Any questions special districts have on this requirement should be directed to their county, district legal counsel, or the law itself. No state agency reviews the local appropriations limits.

Population Certification

The population certification program applies only to cities and counties. California Revenue and Taxation Code section 11005.6 mandates Finance to automatically certify any population estimate that exceeds the current certified population with the State Controller's Office. **Finance will certify the higher estimate to the State Controller by June 1, 2022.**

Please Note: The prior year's city population estimates may be revised. The per capita personal income change is based on historical data.

If you have any questions regarding this data, please contact the Demographic Research Unit at (916) 323-4086.

Attachment

- A. **Price Factor:** Article XIII B specifies that local jurisdictions select their cost of living factor to compute their appropriation limit by a vote of their governing body. The cost of living factor provided here is per capita personal income. If the percentage change in per capita personal income is selected, the percentage change to be used in setting the fiscal year 2022-23 appropriation limit is:

Per Capita Personal Income

| Fiscal Year (FY) | Percentage change over prior year |
|------------------|-----------------------------------|
| 2022-23 | 7.55 |

- B. Following is an example using sample population change and the change in California per capita personal income as growth factors in computing a 2022-23 appropriation limit.

2022-23:

Per Capita Cost of Living Change = 7.55 percent
Population Change = -0.30 percent

Per Capita Cost of Living converted to a ratio: $\frac{7.55 + 100}{100} = 1.0755$

Population converted to a ratio: $\frac{-0.30 + 100}{100} = 0.997$

Calculation of factor for FY 2022-23: $1.0755 \times 0.997 = 1.0723$
