DISCUSSION:

Chapter 10 of Division 2, Title II of the Humboldt County Code regulates the structure, membership, and responsibilities of the Humboldt County Disaster Council. The Humboldt County Emergency Organization and Functions of the Humboldt County Disaster Council ordinance directly affects the safety and well-being of the public in times of crisis. It establishes the framework for preparing and responding to emergencies, aiming to protect lives and property in Humboldt County. The ordinance outlines how local government agencies, departments, and individuals will work together under the Humboldt Operational Area to coordinate resources effectively. It emphasizes public health measures, empowers officials to act swiftly during emergencies, and mandates that county employees serve as Disaster Service Workers (DSWs) to support response efforts. The amended chapter details the structure, responsibilities, and legal authority to coordinate emergency preparedness and response. It defines key terms like "local emergency" and "local health emergency," sets the Humboldt Operational Area under state and federal emergency systems and outlines the composition and duties of the Disaster Council. It specifies the powers of emergency leadership roles including the Director, Deputy Director, and Assistant Director, during emergencies. As well as establishing the position of Emergency Services Program Manager. The document empowers the County Health Officer to declare a "local health emergency" and take preventative measures to protect public health. It mandates that all county departments prepare emergency plans and train employees as Disaster Service Workers (DSWs). Additionally, it addresses coordination with external agencies, penalties for violations, and procedures for declaring emergencies, ensuring compliance with relevant laws. The ordinance serves as a comprehensive guide for Humboldt County's

emergency planning and response framework. These amendments will update the ordinance consistent with state law.

The amendment to this existing ordinance is necessary to align renewal periods for Local Emergency and Local Health Emergency Proclamations with the time periods established by the State of California (60 days, and 30 days, respectively). The update to this ordinance also realigns the position of Assistant Director of Emergency Services with the Office of Emergency Services Program Manager rather than an Operational Lieutenant of the Sheriff's Office. Additionally, the membership of the Humboldt County Disaster Council has been expanded to more accurately reflect the necessary partnership and representation needed on the Council. The updated ordinance also clarifies some, but not all responsibilities of county employees serving in their capacity as DSWs. The ordinance amendments were introduced on June 10, 2025, and are now before you for adoption.
