LAND USE DIVISION INTEROFFICE MEMORANDUM

TO: Liza Welsh, Planner, Planning & Building Department

FROM: Kenneth M. Freed, Assistant Engineer 

DATE: 01/30/2020

RE:

Applicant Name	CANNABANANA LLC
APN	221-061-001
APPS#	PLN-12419-SP

The Department has reviewed the above project and has the following comments:

- The Department's recommended conditions of approval are attached as **Exhibit "A"**.
- Additional information identified on **Exhibit "B"** is required before the Department can review the project. **Please re-refer the project to the Department when all of the requested information has been provided.**
- Additional review is required by Planning & Building staff for the items on **Exhibit "C"**. **No re-refer is required.**
- Road Evaluation Reports(s)* are required; See **Exhibit "D"**.

Note: Prior to requesting an applicant to submit a road evaluation report, verify if the project is exempt from meeting road system performance standards under CCLUO v2.0 sections 313-55.4.6.5.1 and 314-55.4.6.5.1, even if this box is checked.

No re-refer is required.

*Note: Exhibits are attached as necessary.

Additional comments/notes:

Road evaluation required for non-County maintained portion of Thomas Road.

Note: Neighboring projects have participated in a collective road evaluation report. The report separated the road into various segments for multiple applicants to improve. For cost savings to the applicant, advise that the Planning Division provide the applicant with contact info for the Engineer. The Engineer will need to provide a letter stating that this project is covered under the previous report or provide an addendum to the report for the extra mileage.

Once submitted the Department requires all recommendations from Engineer to be completed.

Road Evaluation Reports

1. **ROADS – Road Evaluation Reports.** **Planning and Building Department staff shall request that the applicant provide Road Evaluation Reports for the project.** The particular roads that require a *Road Evaluation Report* is to be determined by following the guidance shown below.

The Department has developed a *Road Evaluation Report* form so that an applicant can address the adequacy of the various roads used by their project. Most projects will require that a *Road Evaluation Report* form be completed.

When viewing the project site on google earth, if the County maintained road (or other publicly maintained road) has a centerline stripe, the road is adequate. If there is no centerline stripe, then the roads leading from the nearest publicly maintained road with a paved centerline stripe (or a known category 4 road) must be evaluated. A separate *Road Evaluation Report* form is needed for each road. This applies to all roads regardless if they are publicly or privately maintained. The Department has prepared a "approved list" of known County maintained roads that are category 4 (or are equivalent to category 4) standards for cannabis projects. The Department has also prepared a list of roads that are known to not meet road category 4 of equivalent. Both of these lists will be updated as the County information regarding the County maintained roads becomes available.

The *Road Evaluation Report* form needs to be provided to applicants to complete. It is important that Planning and Building Department staff provide the applicant with a map that has the roads to be evaluated highlighted. This will most likely include a combination of County maintained roads and non-County maintained roads. This will give the applicant clear direction on which roads need to be evaluated.

Above: screenshot from the WebGIS showing County Road Number circled in **RED**.

A County maintained road will have a 5 or 6 character identifier. The general format is **ABCDDD** where:

- A** is an optional identifier for the functionality of the road (A=Arterial, C=Collector, F=Federal Aid)
- B** is a grid identifier number for the X-axis of a "battleship" style grid that was drawn on a county map to divide the county into a series of squares.
- C** is a grid identifier letter for the Y-axis for the grid.
- DDD** is a three digit road identification number within a particular grid. Each grid can have up to 999 roads in them

Examples:

ABCDDD
A 3 M 0 2 0 Murray Road
F 6 B 1 6 5 Alderpoint Road
6 C 0 4 0 Thomas Road

Road Evaluation Reports

The Department is working towards identifying which County maintained roads meet (or are equivalent to) Road Category 4 standards for cannabis projects. Two lists are being prepared: the first list with the **green** heading shows which roads (or portions thereof) meet or are equivalent to Road Category 4 standard (AKA "Approved List"); and the second list with the **red** heading shows which roads (or portions thereof) that do not meet or are not equivalent to Road Category 4 standards. These lists will be updated as information becomes available. **This list will be updated frequently. Make sure you are using the most up to date list.**

On occasion there may be more than one road that has the same name; in these instances check the road number to ensure that you are referencing the correct road. Until such time as the GIS roads layer has been proofed by the Department, the GIS is not to be used for this task. Use the paper road maps to check road numbers.

If the subject property takes direct access from a road on the "approved list", no further road evaluation needs to be done.

Note: As stated above, County maintained roads with a painted centerline strip are roads considered meeting or exceeding Road Category 4 standards, and are not necessarily listed below.
