Project Description

This Conversion Exemption proposes to convert timberland into agriculture and pond. Per the Humboldt County General Plan, the conversion exemption area is presently zoned Unclassified with an agricultural general plan designation. Agriculture is a principally permitted use on such zoned lands. The pond site is also being engineered by an engineer and permitted through a Humboldt County grading permit. Humboldt County's Grading and Open Space Ordinance applies to this project and the County has reviewed and signed off on this project. See attachment from County.

Addendum 14CCR 1104.1(a)(1)(E)(1-4)

The timberland owners have certified via their signatures, under penalty of perjury, that this is a one-time conversion to agriculture and pond. The timberland owners understand that a "Bona Fide Intention or bona fide intent" is a present, sincere intention of the applicant to conform with and successfully execute the conversion plan, as determined by the Director in accordance with provisions of Sec. 1105.2 (Ref.: Sec. 4623, PRC). The timberland owners, acting as an individual, acting as a member of a partnership, or acting as an officer or employee of a corporation or other legal entity, have not obtained an exemption pursuant to this section in the last five years.

Addendum 14CCR 1104.1(a)(2)(F)

There are no watercourses, ELZs, or WLPZs within the conversion exemption area. The conversion area is adjacent to Class II WLPZs and Class III ELZs, which have been measured and flagged by the RPF. For compliance with Humboldt County's Grading and Open Space Ordinance, a 100-foot SMA is required for the Class II watercourse and a 50-foot SMA for the Class III watercourse. Consequently, the conversion boundary is not located within 100 feet of a Class II watercourse or 50 feet of a Class III watercourse.

Addendum 14CCR 1104.1(a)(6)

The extent of the vegetation removal and site preparation required for the conversion;

Both proposed conversion sites consist of merchantable second growth Douglas-fir and tanoak, which will require timber harvesting and extensive site preparation. Both conversions sites will require extensive excavation and grading.

The suitability of soils, slope, aspect, and microclimate for the stated non-timber use;

The soils, slope, aspect, and microclimate are all suitable for the stated uses.

Project Description

This Conversion Exemption proposes to convert timberland into agriculture and pond. Per the Humboldt County General Plan, the conversion exemption area is presently zoned Unclassified with an agricultural general plan designation. Agriculture is a principally permitted use on such zoned lands. The pond site is also being engineered by an engineer and permitted through a Humboldt County grading permit. Humboldt County's Grading and Open Space Ordinance applies to this project and the County has reviewed and signed off on this project. See attachment from County.

Addendum 14CCR 1104.1(a)(1)(E)(1-4)

The timberland owners have certified via their signatures, under penalty of perjury, that this is a one-time conversion to agriculture and pond. The timberland owners understand that a "Bona Fide Intention or bona fide intent" is a present, sincere intention of the applicant to conform with and successfully execute the conversion plan, as determined by the Director in accordance with provisions of Sec. 1105.2 (Ref.: Sec. 4623, PRC). The timberland owners, acting as an individual, acting as a member of a partnership, or acting as an officer or employee of a corporation or other legal entity, have not obtained an exemption pursuant to this section in the last five years.

Addendum 14CCR 1104.1(a)(2)(F)

There are no watercourses, ELZs, or WLPZs within the conversion exemption area. The conversion area is adjacent to Class II WLPZs and Class III ELZs, which have been measured and flagged by the RPF. For compliance with Humboldt County's Grading and Open Space Ordinance, a 100-foot SMA is required for the Class II watercourse and a 50-foot SMA for the Class III watercourse. Consequently, the conversion boundary is not located within 100 feet of a Class II watercourse or 50 feet of a Class III watercourse.

Addendum 14CCR 1104.1(a)(6)

The extent of the vegetation removal and site preparation required for the conversion;

Both proposed conversion sites consist of merchantable second growth Douglas-fir and tanoak, which will require timber harvesting and extensive site preparation. Both conversions sites will require extensive excavation and grading.

The suitability of soils, slope, aspect, and microclimate for the stated non-timber use;

The soils, slope, aspect, and microclimate are all suitable for the stated uses.

Project Description

This Conversion Exemption proposes to convert timberland into agriculture and pond. Per the Humboldt County General Plan, the conversion exemption area is presently zoned Unclassified with an agricultural general plan designation. Agriculture is a principally permitted use on such zoned lands. The pond site is also being engineered by an engineer and permitted through a Humboldt County grading permit. Humboldt County's Grading and Open Space Ordinance applies to this project and the County has reviewed and signed off on this project. See attachment from County.

Addendum 14CCR 1104.1(a)(1)(E)(1-4)

The timberland owners have certified via their signatures, under penalty of perjury, that this is a one-time conversion to agriculture and pond. The timberland owners understand that a "Bona Fide Intention or bona fide Intent" is a present, sincere intention of the applicant to conform with and successfully execute the conversion plan, as determined by the Director in accordance with provisions of Sec. 1105.2 (Ref.: Sec. 4623, PRC). The timberland owners, acting as an individual, acting as a member of a partnership, or acting as an officer or employee of a corporation or other legal entity, have not obtained an exemption pursuant to this section in the last five years.

Addendum 14CCR 1104.1(a)(2)(F)

There are no watercourses, ELZs, or WLPZs within the conversion exemption area. The conversion area is adjacent to Class II WLPZs and Class III ELZs, which have been measured and flagged by the RPF. For compliance with Humboldt County's Grading and Open Space Ordinance, a 100-foot SMA is required for the Class II watercourse and a 50-foot SMA for the Class III watercourse. Consequently, the conversion boundary is not located within 100 feet of a Class II watercourse or 50 feet of a Class III watercourse.

Addendum 14CCR 1104.1(a)(6)

The extent of the vegetation removal and site preparation required for the conversion;

Both proposed conversion sites consist of merchantable second growth Douglas-fir and tanoak, which will require timber harvesting and extensive site preparation. Both conversions sites will require extensive excavation and grading.

The suitability of soils, slope, aspect, and microclimate for the stated non-timber use;

The soils, slope, aspect, and microclimate are all suitable for the stated uses.
