

Re: Public Hearing "Cisco Farms Inc."  
record # PLN.2024-19479.

Dear Planning Commission ~

Please do not allow Cisco

Benneman to tap into the ground-  
water for his Cannabis farm.

Why is it that 2.65 million gallon  
pond + 190,000 gallons in tanks <sup>are</sup> not  
enough? Will it ever be enough?

We who live in this community  
neighborhood are already inun-  
dated with traffic, lights, noise.

Taping into the groundwater  
will likely impact our water  
supply for our basic uses - NOT  
industrial agriculture.

Please NO! Thank you

Patricia M. Stepanik

Do not have internet etc so hope i got  
all the numbers you need.
