Good morning Rodney,

Thank you for the opportunity to review the new proposed water source and resubmit comments for the subject project. Based on the documentation provided, DEH finds the newly proposed water source (permitted well on APN 100-311-019, 20/21-0120) adequate to support the project; DEH recommends approval of PLN-14126-PMS.

Best,

Joey Whittlesey

Subject: 14126 DEH re-referral

Joey,

This project was referred to DEH back in 2018. A response was sent to us from Ben Dolf. At the time, a spring was proposed as the water source. The water source has changed to a permitted well and a Well Connection Study Report was submitted to our department. I am about to wrap up the project but I wanted to send the report to you in case you may want to submit any comments, as the project has changed.

Thank you,

Rodney Yandell
Senior Planner
