To Whom Truly Cares Board of Supervisors Humbolt County

I REFUSED TO PAY RENT TO THE PROXY YOU PUT OVER ME TO ABUSE ME ANY MORE!!

I WAS NEVER WRITTEN UP, ALWAYS PAID MY RENT ON TIME AN WAS OBLIVIOUSLY NOT WHAT THEY WERE LOOKING FOR TO DO WHAT THEY WERE DOING IN THE COMPLEX.

**NO PLAN OF ESCAPE FOR NEIGHBORS IN WHEEL CHAIRS INCASE OF TSUNAMI**

I got into your housing 1<sup>st</sup> Program in hindsight, has shown by a fluke. At 68 a female and suffering thru several disabilities. After jumping over and thru many hoops and laying ALL my vulnerabilities out there I got what I had hoped would be my forever home, or a safe place to be, until I had the opportunity and funds to find a bigger place, on my own still close to walking distance of needs.

TOOK ME TO COURT TO PROVE THEY DISCRIMINATED AGAINST ME BECAUSE I COULDN'T COMPLY BY LETTING THEM CUT INTO MY CEILING AND WALLS AFTER THEY FLOODED MY APT. to let the UNPREMEDITATED MOLD AND COCKROACH DROPPINGS INTO MY APT. VIA DOCTORS ORDER

What I found from the county and city of Arcata via there proxies:

1. Right after signing my lease, I was told it is NOW a smoking complex because too many people smoked that were going to live there; knowing full well I had respiratory problems, and why I accepted the apartment.
2. I was then told the promised deposit from the county was not there, as me and the Missed Worker, stood outside waiting to land what little stuff I had, and if someone didn't come, I was out, and the promised apt. number was now changed to a different apt. where the shaded smoking area smoke T-boned into my only window I could open.
3. Fast forward to finally getting in and having been told we were not allowed dead bolts on our apt. doors as people were breaking in with credit cards.
4. I formed TIPS Tenant Initiated Partnership and had to fight with Legal Aid stating no, not required in CA and No nobody wanted them on the doors accept me... Until I showed a petition with most of my neighbors.

5. Then the dumpster being too small and the management encouraging the resident to recycle pushed tons of roaches into the apts and the bad actors denied they had them even as you watched them traverse their walls.
6. After several years and begging they decided to remediate and we who had respiratory problems asked what they would be spraying, BEFORE they sprayed and asked for REASONABLE ACCOMMODATIONS (To NO AVAIL) VIA DOCTORS ODERS, so we could vacate the building BEFORE they did spraying and NOT A 24 hrs., notice on a Friday so we couldn't get help to comply.
7. They had dripping 24/7 for years of there A/DC COOLER AND HEATERS ONTO THE ONLY WINDOW BREADING MOLD.
8. No remediation of the water damage in most apartments if they flood until their roofs were falling on their heads.
9. NO ESCAPE THRU 3 LOCKED GATES IN A TSUNAMI WITHOUT going into the Tsunami zone to walk out.
10. FANS in the bathrooms that ONLY CAME ON when you were out of the shower or on the toilet. LEAVING THE MOISTER TO DROP OFF THE WINDOW CEILING YOU CAN'T OPEN UNTIL YOU WERE OUT OF THE SHOWER.
11. Dared to have anything but the 1 table, 1 chair, 1 dresser and 1 bed in a later lease.
12. Dared to take the cable from over the stove to the other side of the room without putting it in front of the door or over the roof to be able to use it.
13. LAST BUT NOT LEAST REFUSED TO BUY INTO THE LIE ABOUT REMEDIATING AND BRINGING THE COMPLEX UP TO CA. STATED CODE, AND ALLOWING YOUR PROXY TO KICK ME OUT OF MY APT. FOR 6 MONTHS OR MORE TO DO NOTHING MORE THAN KICK THE MOLD FROM APARTMENT TO APARTMENT AND TO LIVE IN A LITTER BOX NOW, THAT 30 PLUS ANIMALS WERE NOW GOING TO BE IN THE SMALL COMPLEX, ABUSED WITH NO WHERE TO GO TO DO THEIR BUSINESS, OR RUN. AND PITTING AGAIN, NEIGHBOR AGAINST NEIGHBOR FOR THE LOVE OF ALL PETS.
