Eureka, CA 95501-1153.

DATE TO SUPERVISOR _____ DATE APPROVED _____ NOT APPROVED _____

Statement of Interest-

I have been running a small general contracting company here in Humboldt for just about 20 years. I have also had the good fortune to be in a position to serve as a landlord for much of this same time and I'm proud of my modest contribution to the local housing stock. On the one hand renting out a few duplexes is simply landlording and doing construction work is simply the physical acts involved in putting a building together. But on the other hand both of these undertakings have involved me in the complexities of housing, the business of construction, the arena of providing employment in our isolated community, and the process of supporting my tenants. From my clients with the construction company to my tenants to my employees to the men and women who help me in the lumber yards around the community I get a front row seat to the struggles and issues that people work through to keep some food on the table and a roof overhead. These days I'm interested in how our local government can work to support folks with housing and with the business of housing so that Humboldt can continue to become a better and better place to live. I'm a listener and collaborator by nature and I'm interested in serving on the commission to be part of the conversation as we work together to plan a route forward for Humboldt county.

Obviously, housing and real estate development and the interrelationship those have with economic development are huge issues for Humboldt County. As a member of the Planning Commission I look forward to connecting with the "At Large" constituency through emails, phone calls, letters, meetings or any other way we figure out how to communicate so that I can work to understand how decisions made by our local governance effect the people we serve and how the knowledge and experience of our citizenry can bring insight and guidance to policy decisions.

PROFESSIONAL EXPERIENCE

Owner of Equity Building and Design

2003-present

All physical elements of residential construction and remodeling: all trades

Architectural design

Project planning and permitting

Managed the planning and execution of a minor 3-lot subdivision

Managed the planning and execution of a major 8-lot subdivision

* A current project involves working with Keri Schrock at the Humboldt County DHHS to secure state funding for the preservation of Humboldt County's only existing RCFE that accepts SSI as payment. Our involvement has included grant preparation and well as building design and budgeting and I am currently preparing the permitting package with the expectation that my company will make the improvements early next year.
