

Dear Supervisors,

We, small business owners of Humboldt County, are writing this letter in support of Honeydew Ranch LLC and the RRR Program. Our community as a whole, has seen a sizeable change in the prosperity of our economy within the last few years and due to Covid19, we as a nation, are in the midst of an even greater economic downturn. 7.5 million small businesses are projected to remain closed permanently following this shut down. You can only imagine how those numbers will translate into our already deteriorating economy. We cannot deny that our community, especially Southern Humboldt, has become reliant on cannabis businesses to sustain a large percentage of our privately-owned small business income including restaurants, grocery stores, nutrient stores, etc.

At full build out, this receiving site could potentially facilitate up to nine relocation projects at 20,000 square feet of mixed light and outdoor cultivation each. That is \$344,124 in Measure S tax dollars annually, not accounting for a likely increase in this tax rate, from projects that would otherwise be decommissioned due to their current cultivation sites being located in environmentally sensitive areas. As we know, this revenue is circulated back into our *local* community providing funding for child abuse victims, mental health services, maintaining rural ambulance and first responder services. This project and the RRR program would also create jobs for community members, not only on-site, but to local distribution companies, consulting companies, engineering firms, and other small business owners and employees that live in and spend their money locally. Honeydew Ranch alone has paid close to \$288,000 in 2019 in engineering costs, compliance/licensing and consulting costs, lab testing at local facilities, property and cultivation taxes.

Not only will this project have significant net positive environmental effects, as laid out in the photo and video documentation of the three restoration sites, but it will be a huge benefit to our community financially. Now, more than ever, it is imperative that our community come together to support one another and our businesses.
