Please take a look at the attached. The City is really going to impact the historic property. I don't understand how that's being allowed.

I was browsing the documents about the 2212 Sewer project from 2015.

The city put forth the following pre-zoning document

<https://www.cityofarcata.org/DocumentCenter/View/440/1458-Prezoning-2212-Jacoby-Creek-Road-effective-6-19-2015-PDF?bidId=>

The CoA wanted the following condition on the property.

“Future development shall also not significantly diminish the school’s historical structure, context or setting. The maximum percentage of site area to be occupied by structures, parking, driveways and pavement shall not exceed 60%.”

They are clearly stating that the context and setting needed to be preserved.

It is very frustrating that they are destroying the context and setting with the build of the roundabout now. This seems like they recognized the setting and context and are now completely ignoring it.

Also. Please see the map they attached at the time.

Till it drives you crazy, too." — [Langston Hughes](#)
