ATTACHMENT 1

REVISED RECOMMENDED CONDITIONS OF APPROVAL

APPROVAL OF THE SPECIAL PERMIT IS CONDITIONED ON THE FOLLOWING TERMS AND REQUIREMENTS WHICH MUST BE SATISFIED BEFORE THE PROJECT MAY BEGIN OPERATING

B. Ongoing Requirements/Development Restrictions Which Must be Satisfied for the Life of the Project:

5. ~~Prohibition~~ Limitation on use of synthetic netting. To minimize the risk of wildlife entrapment, Permittee shall not use any erosion control and/or cultivation materials that contain synthetic (e.g., plastic or nylon) netting, including photo- or biodegradable plastic netting. Geotextiles, fiber rolls, and other erosion control measures shall be made of loose-weave mesh, such as jute, hemp, coconut (coir) fiber, or other products without welded weaves. Note: synthetic netting may be used within a greenhouse so long as the structure remains inaccessible to wildlife during all periods of cultivation and use. During periods where not being used, all synthetic netting must be properly stored in a secure location inaccessible to wildlife. Prior to disposal, all netting shall be modified (through cutting or similar measures to eliminate all small voids) to ensure that it no longer poses a risk to wildlife. Disposal shall occur at a secure location designed to be inaccessible by wildlife.

10. All components of project shall be developed, operated, and maintained in conformance with the Project Description, the approved Site Plan, the Plan of Operations, and these conditions of approval. Changes shall require modification of this permit except where consistent with Humboldt County Code Section 312-11.1, Minor Deviations to Approved Plot Plan. ~~If off-site~~ on-site processing is chosen to be the preferred method of processing, this permit shall be modified to identify the location of the on-site ~~off-site~~ licensed facility.
