Please do not certify the final Environmental Impact Report and deny the permit for the following reasons:

- 1. The massive electricity use (equal to Eureka and Fortuna together). We are going to need it to electrify all of our transportation and buildings;**
- 2. The role of salmon farming for the US in a world where 350 million people don't have enough to eat;**
- 3. The 100,000 or more metric tons of greenhouse gases that will be emitted annually by the fish feed;**
- 4. The fact that Humboldt Bay already has local sustainable aquaculture in the form of our oyster farms; and**
- 5. The risks: Tsunami, earthquake and fish escape.**

Thank you in advance for your consideration in this matter.
