

To Eureka City Planning Commission

Hey planning Commish, exactly what is it your Commission does for Eureka? besides plant 3yr old trees on the sidewalks around the Eureka Inn? why don't you people take on some really extraordinary town projects like build a large state of the Art indoor olympic size swimming pool facility? maybe on that huge open lot south of Courts fisherys on the water front if the lands available. And also why don't you consider building a large state of the Art skateboard Miguels and whoopie do's smooth concrete park with maybe large plywood custom built half pipe for skateboarders of all ages who enjoy skateboarding on a great surface? maybe on the waterfront North of Adornie center. You could also consider building on the same area site a huge wooden track railed Rollercoaster. Just some idea's I've thought might be beneficial for fun for all townsfolk of Eureka for there leisurely Entertainment and enjoyment. I don't know I'm sure others might of thought of a new community swimming pool? Another locale lot it maybe suited for the swimming pool is directly across the street from the Key building 1/2 block south of the county maintenance garage facility on that vacant lot who knows? ya Kasey just a few ideas for town of Eureka Community improvements.

Signed

Roderick
Rightmire

And also if ya need a design plan for a swimming pool? maybe contact Scottsdale, AZ's City planning Commish. for building designs of there several different pools they have throughout there great city. And they have design of a great skateboard park facility also. check it ^{them} out, if you want quick Access to already in use great leisurely facilities.
