Public Comment - re: North Fork Farms, LLC: Petrolia Area, record Number PLN-2020-16766 - hearing date 9/16/21

Plain & simple. The Mattole Valley does not need one more oversized cannabis cultivation site. It has become a greedy, senseless, misuse of beautiful agricultural land. It is open space which should not be defiled with complete disregard for the families who revere quality of life that the valley still has to offer. A project like this belongs in an industrial area, not in the Mattole Valley. Please do not grant this permit. Enough is enough!

Thank you for your consideration of all of the local citizenry.

This project does not have community support.

Sincerely,

Lynn McCulloch
