Hi Michael,

The applicant is asking us to move this forward to a hearing and from our stand point it is complete pending any concerns from the tribe regarding the archaeological study. We understand from the archaeologist that they have made many attempts to meet to discuss the project with the tribe. We would appreciate it if you could let us know if the tribe is okay with this moving forward at this time to the Planning Commission and if not, what is needed. Thanks

Thank you, Cliff,

I'm looking into the status of this application and will be in touch.

Hi Michael, This is the application I mentioned on our phone call. Back in February/March we were

working with Kate Fisher, Elly Hoopes and Frankie Myers regarding the tribes concerns about this site and the potential inadequacy of the cultural resources survey that had been prepared and submitted by Mark Arsenault. I understood that there may have been some meetings the tribe was going to have with Mark Arsenault to try to resolve the issues. I wanted to follow up and see where that is at and whether the tribes concerns have been addressed or not. If you could inquire and see what the status of this is that would be helpful, we are getting requests from the applicant again to move forward to a decision on the permit. Have a nice weekend.
