July 12, 2021

To the Planning Department:

It is with the Alderpoint County Water District board members understanding that Mr. Max Hilken is the planner for our customer Tony Palamara and Zak Ruch, Account 97. The board feels there needs to be further investigation before this grow is accepted.

It is the policy of the Alderpoint County Water district to not supply water to commercial Cannibas grows.

Is the water Palamara/Ruch using coming from a permitted well as the letter from the planning dept states, or permitted pond as Mr. Hilken said on Friday, July 9th 2021?

Please verify the production of their well or pond in view of the amount of water used through there residential water meter.

Enclosed is an attachment of the water usage Palamara/Ruch are drawing from the Alderpoint County Water Districts residential meter.

The Account #97 Palamara/Ruch is severely in the rears. A payment has been received as of June 26, 2021. but the account is still severely in the red. No payments were made since the beginning of the Covid-19 Pandemic.

Thank you,

Board Members of

Alderpoint County Water District

Palamara and Ruch water usage
