I am in favor of the AT&T cell tower coming to Humboldt County. I visit from North Dakota on a frequent basis and have poor reception (Sometimes none at all) when visiting the Arcata Aera. I feel that this is a very needed addition to the Arcata Humboldt county area due to spotty service. I ask you to consider and approve supporting the AT&T tower. I read the tower would be on FAUX water tower which would go great on agricultural land. This tower would be on the intersection of Foster and Janes Rd.

Thanks,
