My name is Margaret (Meg) Stofsky and I live on Manzanita Ave, which is a cul-de-sac and would be affected by this very ill thought out plan. Please do not go forward with the McKay forest development plan. Cal Fire indicated that it would substantially increase fire risk

CRTP has indicated that the lack of a meaningful traffic analysis has grossly underestimated the impact on traffic, therefore emissions and quality of life as far as walking in the Sequoia Park & Zoo area. We don't need any more houses in the \$500000 range! This is the wrong plan at the wrong time. Please submit my comment for the public record.

Thank you. Margaret Stofsky
