

COUNTY OF HUMBOLDT

AGENDA ITEM NO.

I-2

For the meeting of October 18, 2016

Date:

October 13, 2016

To:

Board of Supervisors

From:

Kevin Hamblin, Interim Director Planning and Building

Subject:

Analysis of Certification of Petition, Mobile Home Park Space Rent Stabilization

RECOMMENDATION(S):

Board of Supervisors receives a staff report on the impacts and possible costs associated with implementation of Mobile Home Park Space Rent Stabilization Initiative.

SOURCE OF FUNDING:

Fees and General Fund

DISCUSSION:

August 9, 2016 the Board took action to place the Mobile Home Park Space Rent Stabilization on the ballot in November, pursuant to Election Code §9118. The Planning and Building Department were asked to review the Ordinance for potential costs associated with implementation. Before proceeding with the cost analysis staff wanted to present an analysis of some of the data, to ensure projections will be based on accurate data.

Prepared by Paula Mushrush		CAO ApprovalTLFR (her Olligan

		Dated: DCTOPEV	18 2010
		By: 200 2	201000
		Kathy Hayes, Clerk of the Board	1

"Section 9101-2 FINDINGS, A. There are some 42 mobile home parks with a total of 1,095 spaces located within the unincorporated areas of the County, comprising nine percent (9%) of the housing units in the County. This is more than double the State average of four percent (4%)."

It is unclear where the data for this finding was derived. The California Department of Housing & Community Development ("HCD") has a list of licensed manufactured home parks, there are currently 57 (Attachment B), 15 of these parks have less than 10 spaces, meaning there are only 42 parks covered by this ordinance. Staff will premise the analysis on 42 parks.

The number of spaces in the 42 covered parks is 1,502. What is unknown is the number of exempt units. There were no parks built after 1990, which eliminates that exemption, but units can still be exempt under two other scenarios:

- 1. Space with a written lease with a term of over 12 months.
- 2. Space where the owner is not a full time resident and they do not rent their unit out.

The maximum number of covered units is 1,502. This number is likely to decrease over the first few years, as parks begin to report and above exemptions are filed. For purposes of administrative fee revenue projection will apply the number of spaces cited by the finding in the proposed ordinance – 1,096, 27% less than the total listed by HCD, . Staff will use 1,096 as the number of non-exempt units. This will go up or down during the first few years and will need to be evaluated for the first three years.

"Section 9101-2 FINDINGS, E. During recent years, rent increases in Humboldt County mobile home parks have substantially exceeded the percentage increase in the Consumer Price Index (CPI)."

Staff used Humboldt County Multiple Listing Service to analyze the average space rent for units sold during the months of June-Aug, including the current units on the market as of August 18, 2016. This doesn't account for space rent increases on units that haven't sold or those privately sold, but it gives an unbiased database to draw from. It should also be noted that some parks have risen more than others while some parks have space rents that have changed very little.

In an effort to determine the current rents and the changes over time, staff went back to review the last three years CPI index percentage increases. Of mobile homes that have sold, the average space rent increased by \$77 over the last three years. Note that this is comparing mobile home park space rent for sale, against mobile home park space rent for sale. Had space rents increased commensurate with CPI the average rent would have increased by \$37 over the same period of time. The current average space rent for the 12 units on the market is \$453.

Year	Units with Space Rent listed in the MLS	Space Rent Ranges	Average Space Rent	Annual Percent Increase of Average Space Rent	Annual % change in San-Francisco Oakland, San Jose CPI
Year 2013	83 sold	\$270 - \$550	\$ 391	Base year	
Year 2014	86 sold	\$275 - \$520	\$ 418	6.84%	3.0%
Year 2015	54 sold	\$317 - \$550	\$ 428	2.54%	2.3%
Jan-Aug 2016*	43 sold/ 12 for sale	\$275 - \$625	\$ 468	9.52%	2.7%

^{*} Includes those currently for sale in August.

9101-10 E. and F., Fair Return Standard. Section E and F refer to operating expenses inclusions and exclusions. The items to include and exclude are not clearly written. Staff is recommending that this section be carefully reviewed and administrative implementation interpretation and procedures developed as part of setting up the fair return petition guidelines.

There is a concern on the timing of this initiative. The initial work is falling in a department greatly impacted by the cannabis ordinance. Should the ordinance pass in November, according to the ordinance staff would need to have the program set-up and running within 3 months.

There are two discrete section of costs associated with this ordinance.

1) Initial Program Set-Up

- a) Develop Plan and Timeline for Implementation
- b) Annual Reports
 - i) Creating written procedures and related handouts for submitting Annual Reports
 - ii) Development of an Annual Registration form.
- c) Fair Return Petitions
 - i) Creating written procedures, including clarity on expense income inclusions and exclusions.
 - ii) Handouts for submitting Fair Return Petition
 - iii) Development of Fair Return Petition Form
- d) Funding reimbursement fees
 - i) Prepare a resolution for adopting an administrative fee, maximum \$5/unit.
 - ii) Define fee for submitting Fair Return Petition and prepare Board Report to adopt an amendment to the fee schedule.

2) Annual Work

- a) Annual Review and Registration Form
 - i) Review, post, and mail CPI to park owners
 - ii) Send Registration form to 42 parks
 - iii) Follow-up and collect data
 - iv) Review data for compliance
 - v) Follow-up with a clearance letter, or to pursue civil penalties
 - vi) Maintain a public information file
- b) Fair Return Petition
 - i) Explain program and process for petition
 - ii) Provide a Petition Form
 - iii) Collect fee and Petition Form
 - iv) Review the Form and determine the need for a technical expert
 - v) If necessary issue an RFP for an expert, and then contract with that expert
 - vi) Arrange for a Hearing with a Hearing officer
 - vii) Review the Application before a hearing officer as prescribed in the ordinance
 - viii) Send a copy of the result to the tenants and the park owner
 - ix) Ensure that all timelines as prescribed are met

FINANCIAL IMPACT:

The initial set-up is anticipated to cost approximately \$30,000. This work will need to be completed within the first three months. The administrative fee can be collected in January 2017 and will need to be collected by the park owners and remitted to the county. In a best case scenario, the administrative fee for

fiscal year 2016-17 would generate \$34,894, and these funds would be used for the annual work. However, the administrative fee may logistically be difficult for the mobile home park owners to collect, as they have not been in the position to collect revenue on behalf of the county. Therefore, the cost to set-up this program will require the General Fund to make a one-time contribution to Planning and Building in the current fiscal year.

Staff will return to your Board with a request for a General Fund contribution based on the passing of this measure and discussion with park owners on their ability to collect and remit the fee to the county.

The annual estimated cost to operate this program is \$72,065 (see Attachment A). Annual revenue based on staff's estimates, at \$5/space would be \$65,788. Therefore the annual general fund contribution will be \$6,277, which will likely increase after the first few years. Under the above scenario it is assumed that in accordance with the ordinance most of the direct costs for Fair Return Petition process will be recouped from the park owners.

OTHER AGENCY INVOLVEMENT:

ALTERNATIVES TO STAFF RECOMMENDATIONS: Board's discretion.
