Humboldt County Planning Commission
825 Fifth Street
Eureka, CA 95501

Dear Members of the Planning Commission:

Thank for the opportunity to respond to the County draft environmental impact report on the proposed commercial cannabis ordinance. The City is deeply concerned about the negative effects of cannabis cultivation on its citizens and we've previously requested establishment of a buffer encompassing the City's entire complete Sphere of Influence.

Odor from marijuana cultivation is one of the most significant issues that impacts Fortuna's residents who live along the County boundary. Marijuana odor is strong, persistent, and overbearing, and already emanates from the County's several permitted cultivation sites as well as from illegal cultivation sites in the vicinity. Residents have reported health and quality of life issues.

The draft environmental impact report identifies odor as a significant impact to the City's residents and acknowledges that implementation of the proposed ordinance would result in a significant impact that cannot be mitigated. Impact 3.3-4 of the draft environmental impact report acknowledges that "cultivation and processing of cannabis generates odors associated with the plant itself, which during maturation can produce substantial odors. Setbacks are provided as part of the proposed ordinance; however, they do not preclude the generation of odorous emissions in such quantities as to cause detriment, nuisance, or annoyance to a substantial number of people. This would be a significant impact".

It is unacceptable that County would propose adopting a statement of overriding considerations and recommend adoption of standards that would continue to impact City residents. While it is recognized that the draft EIR recommends a special permit for any commercial cannabis activity that would be located within the sphere of influence or within 1,000 feet of the city limit boundary of any city, the special permit process would not be a guarantee against the creation of objectionable odors, which only an outright ban would accomplish. Therefore, the City recommends that the County adopt Alternative #3, prohibiting outdoor and mixed-light cultivation, and that the County further protect the City's citizens through a complete ban on cultivation and related activities within the Sphere.

If you have any questions or wish to discuss this further, please do not hesitate to call.

Sincerely,

Mark Wheatley
City Manager
