

AMENDMENT TO AGREEMENT FOR PROFESSIONAL SERVICES

Design Engineering and Project Development

For

Pine Hill Road Bridge (04C-0173)

Over Swain Slough

Project Number: 594020

This Amendment to the Agreement for Professional Services dated April 3, 2012, by and between the COUNTY OF HUMBOLDT, a political subdivision of the State of California, hereinafter called "COUNTY," and Quincy Engineering a California corporation, hereinafter called CONSULTANT is entered into this 4 day of August, 2015.

WHEREAS, on April 3, 2012, COUNTY and CONSULTANT entered into an Agreement for engineering services to prepare plans and specification for a bridge replacement; and

WHEREAS, such additional services are required to perform subsurface investigation required for seismic analyses promulgated by the California Department of Transportation since the initial contract execution and therefore not included in that agreement; and

WHEREAS, CONSULTANT is able and willing to assist the County with these additional services.

WHEREAS, the parties desire to amend the Agreement to increase the services and compensation amount by \$14,000 accordingly;

NOW, THEREFORE, it is mutually agreed as follows:

1. **EXHIBIT B – SCOPE OF SERVICES**, is hereby amended to include additional scope items contained herein as attachment A.
2. **ARTICLE V – subsection 5.02**, is amended to read:
"It is mutually agreed between COUNTY and CONSULTANT that payments to CONSULTANT including the total amount of salaries and expenses shall not exceed \$412,170, inclusive of all agreements to date, for the work set forth in Article II, as Described in Exhibit "B" of the original Agreement and as amended in ATTACHMENT "A" PROJECT UNDERSTANDING AND SCOPE OF WORK."
3. In all other respects the Agreement for Professional Services between the parties entered into on April 3, 2012 shall remain in full force and effect.

[Signatures on following page]

IN WITNESS WHEREOF, the parties hereto have executed this Amendment to the Agreement for Professional Services dated April 3, 2012, on the date indicated above.

Subject: Cost and Justification for Additional Boring, Geotechnical Assessment of the Pine Hill Bridge, Humboldt County

Dear Jason:

At your request, SHN is providing this letter to outline the need for additional subsurface investigation, and the cost of the proposed supplemental investigation. As we are all aware, the assessment of the Pine Hill Bridge has been a complex, iterative process due to the presence of a deep section of soft estuarine soils at the site. Completion of the site-specific seismic response spectra, and the subsequent ground response analysis, have provided additional data that have led to a preliminary design incorporating pile tip depths at or near the maximum depth of previous borings and cone penetration tests. In order to reduce uncertainties (and therefore risk) associated with foundation design and construction, it would be prudent to drill a single additional deeper boring to provide supplemental design data.

We are proposing to drill one additional boring to depth on the southwest corner of the existing bridge. The bore would be advanced to 80 feet, without sampling or penetration testing, so as not to duplicate the previous investigation. From 80 feet, the bore would be advanced to an estimated depth of 120 to 140 feet (the actual depth will be determined based on the results of penetration testing at the time of the field investigation). The cost estimate below includes the cost of the drilling subcontractor (over 60% of the budget), permit fees, additional focused lab testing, and modification to the Foundation Report and Log of Test Borings. The estimated cost is \$14,000. We are able to complete this supplemental investigation immediately, depending on driller availability.

Please contact myself or John Dailey should you have questions regarding this proposal. This has been a long process, and we look forward to completion of this important investigation.

Respectfully,

SHN Consulting Engineers & Geologists, Inc.

Fee Schedule January 1, 2015

When accurate definition of the proposed work is not possible, an hourly charge out rate for determining compensation shall be used. Hourly charge rates include payroll costs, overhead, and profit. Hourly services are billed portal to portal and are subject to a 2-hour minimum. Current rates are as follows:

Hourly Charge Rates		
Position ¹	Hourly Rates	
Principal Engineer	\$ 130.00	- \$175.00
Principal Engineering Geologist	\$ 120.00	- \$150.00
Principal Surveyor	\$ 120.00	- \$150.00
Project Manager	\$ 80.00	- \$150.00
Senior Planner	\$ 95.00	- \$135.00
Senior Engineer	\$ 110.00	- \$145.00
Senior Geotechnical Engineer	\$ 120.00	- \$150.00
Senior Geologist	\$ 110.00	- \$140.00
Senior Surveyor	\$ 100.00	- \$130.00

Notes:

All samples of soil or rock from physical testing are discarded 30 days after submission of final report unless prior arrangements are made. Samples of soil or rock submitted for testing for hazardous substances will be returned to the Client, who is responsible for proper disposal.

This fee schedule is subject to review and adjustment, as required.

Certain services may require prevailing wages or overtime at premium pay to SHN employees. In such circumstances, fees will be adjusted to reflect increased labor costs.
