RESOLUTION NO. 20-11

Attachment 1
Exhibit "A"

Findings of Approval for Zoning Text amendments

Finding

1. Public Interest: The Zoning Text amendments are in the public interest.

Facts

1 These regulations are in the public interest because they are designed to protect the public health, safety and welfare of residents of the County of Humboldt, visitors to the County, persons engaged in regulated cannabis dispensary activities including neighboring property owners, the environment from harm resulting from cannabis activities, including but not limited to streams, fish, and wildlife, residential neighborhoods, schools, community institutions and Tribal Cultural Resources; to ensure the security of state-regulated medicinal or adult use cannabis; and to safeguard against the diversion of state-regulated medicinal or adult use cannabis for purposes not authorized by law.

The modifications approved by the Coastal Commission align the Dispensaries Ordinance with the County's Local Coastal Plans which is also in the public interest.

Finding

2. General Plan Consistency: The Zoning Text amendments are in conformance with other applicable policies and standards of the Humboldt County General Plan.

Facts

2 The purpose of the ordinance amendments is to establish land use regulations concerning the cannabis dispensaries within the coastal zone portion of Humboldt County.

Policy UL-P21 of the 2017 Humboldt County General Plan states: Cultivation of medical cannabis shall be regulated by ordinance to provide for the health, safety, and welfare of the community, but shall not interfere with the patient's right to medical cannabis. The General Plan policy was finalized prior to California State approval of recreational cannabis, and thus this policy should be understood to apply to both medical and recreational cannabis regulations. This policy states the clear intent of the county that cannabis activities including the sale of cannabis from dispensaries shall be regulated in order to protect the public, health safety and welfare. This ordinance accomplishes that objective.

The modifications approved by the Coastal Commission align the Dispensaries Ordinance with the County's Local Coastal Plans as described in the findings approved by the Coastal Commission in the August 7, 2019 staff report.

RESOLUTION NO. 20-11

Finding

3. Housing Density

That the proposed zoning change will not reduce the residential density for any parcel below that utilized by the Department of Housing and Community Development in determining compliance with housing element law (the mid point of the density range specified in the plan designation)

Facts

3. The proposed ordinance amendments as modified by the Coastal Commission limit dispensaries to properties zoned for commercial use, so the properties affected by the ordinance are not included in the residential land inventory used by the Department of Housing and Community Development in determining compliance with housing element law.

Finding

4. Coastal Act Consistency: The Zoning Text amendments are in conformance the Coastal Act.

Facts

4. The proposed zoning ordinance amendments as modified by the Coastal Commission will help protect coastal resources from harm resulting from cannabis activities, including streams, fish, and wildlife and wildlife habitat, and Tribal Cultural Resources.

The new policies and performance standards provide guidance and new tools to address land use issues surrounding the siting and operational standards for cannabis dispensary activities. As such, no impact on coastal access concerns, recreational uses, marine or land resources, and industrial resources are likely to occur.

The suggested modifications will make the Dispensaries Ordinance for the coastal zone more consistent with the County's Coastal Plans and the Coastal Act as described in the findings adopted by the Coastal Commission at their meeting on August 7, 2019.
