Subject: Concerns

My name is Jennifer Schwartz and I own property in Myers Flat, 559 Boy Scout Camp Rd.

I have concerns regarding the projects at 515 and 540 Boy Scout Camp Rd.

First, the new owner trespassed on the private property next door to me (541) to dump soil. The trespassing created a trail and now other people are trespassing on that property and cutting into my property.

Second, there is a squatter living next door to me (577) who would of been evicted by now if not for virus. He is inconsiderate, loud, and has threatened and harassed me. He is now working at property 540. He is very loud over there with his music and he drives by my place very aggressively.

I hope these new owners learn to respect the neighbors by not trespassing and not bringing in loud noises, and bad people.

Thanks

Subject: Zoning Administrator Meeting

5/19/2020 This is in regards to the letter we received from the Humboldt Co Zoning Administrator dated May 6th 2020. The applicant is requesting a "Special Permit for a reduction to the required 600 foot setback from public lands". The requests are for properties located at 515 Boy Scout Camp Rd and 540 Boy Scout Camp Road in Myers Flat, CA. We request that the "Special Permits" be DENIED. This area used to be all family owned properties where you could enjoy time with family and friends. With all the grows on the road now, the "Smell" is very overpowering as the plants mature. It has created increased traffic on this private road which is in complete disrepair and nobody helps that maintain it. We have had crushed rock brought in to help with holes and mud in front of our property, but it doesn't last with trucks up and down the road all the time. I don't think regulations should be changed to allow plants closer to the road and other peoples property. We have been property owners there for years and would like to see this rejected.

Than you, David and Pam White
