

SUPPLEMENTAL INFORMATION

No. 1

For Planning Commission Agenda of:

August 6, 2020

Item No. E-7

Re:	Applicant:	Khristy Garrelts
	Case Number:	PLN-2019-15813
	APN:	303-111-019

The staff report for this project incorrectly stated that the project was served with community water and sewer services provided by the Humboldt Community Services District. The site is only served with community water and individual on-site wastewater treatment systems serve each residence separately. The nearest sewer main line is approximately 1,000 feet to the east along Ridgewood Drive. This will not affect any findings made to approve the project or any conditions of approval. Additionally, the Division of Environmental Health reviewed the project with the understanding that each house was served by separate wastewater treatment systems and has recommended approval of the project.
