

From: [Kenneth Claypool](#)  
To: [Planning Clerk](#)  
Subject: Record # pln-11744-cup meeting #976 3777 7152  
Date: Thursday, February 04, 2021 5:19:31 PM

---

**As someone who regularly uses existing easement through the parcel in question and has witnessed and experienced the issues the gate at the entrance to the property off of Bellus rd has caused, I ask that if there is no compelling reason for a gate to obstruct cabin road, that the security plan be amended so that if gates are necessary they be placed off of cabin road on the driveways leading to the cultivation sites. If this is not feasible I ask that a condition of their permit be that they abide by the terms outlined in and agreed to by the millers in the binding mediation agreement between the Claypool's and the millers.**

I also ask that Cabin road, as it passes through the parcel in question be properly maintained and the brush be kept back beyond the edge of the road for safe vehicle passage, visibility and added fire protection.

Thank you for the consideration. Additional documentation is available or if there are any questions of concerns please call (707)223-0623 or email.
