Dear Humboldt County Board of Supervisors:

On behalf of California State Parks, I am pleased to recommend a North Coast Redwoods District representative to serve as a non-voting Agency Liaison to the Humboldt County Fire Safe Council (HCFSC). The North Coast Redwoods District nominates Allan Wiegman, to be appointed by your Board, to fill the new Liaison position.

Allan has attended HCFSC meetings for several years and has a solid understanding of ways in which a Liaison might further the goals of the Council. We believe that Allan's educational background in Natural Resource Management, knowledge of wildfire mitigation and forest resiliency strategies, and extensive work experience as a NCRD Resource Ranger, specializing in fire and resource projects, makes him a valuable partner as the group works to provide guidance for the successful implementation of the Humboldt County Community Wildfire Protection Plan (CWPP).

I believe that Allan will be an asset to the HCFSC if he is appointed as an official member. This will allow him to more robustly participate in the activities of the HCFSC and help strengthen the working partnership with California State Parks. Allan's contact information is as follows:

Humboldt County Supervisors,

I write to offer my resignation as an appointed member of the Humboldt County Fire Safe Council. I would like to nominate my current Alternate, Ali Freedlund as my replacement. Ali has been an active member of the Lower Mattole Fire Safe council since 2011, and works in restoration and forestry for the Mattole Restoration Council. She has been very successful bringing in grant money for, and managing fire safety projects in and around our communities.

I appreciate having had the opportunity to serve on the Fire Safe Council, and am encouraged by the work we've done. I applaud our County Government for being supportive, and conscious of fire issues. There is great value in fire fighters, citizen property owners, restoration organizations, tribal government, private timber owners, and public agencies, all being able to learn from each other, collaborate, and communicate.

Wishing you the best,

Ian Sigman
