

Schedule A to the STD Form 20

Verizon Wireless
Pricing and Information Sheet
State of California CALNET Contract #C4-CVD-19-001-03
Subcategory 19.1

Scope. On May 23, 2019, Verizon Wireless and the State of California, acting through the California Department of Technology, entered into agreement number C4-CVD-19-001-03 for wireless services (together with its exhibits and any amendments, the "Contract"). The Contract includes terms allowing Verizon Wireless to provide Eligible Entities Custom Service Plans ("CSP"). The Contract also allows for a transition of active lines of service purchased under California Participating Addendum # 7-10-70-16 ("PA"). This Schedule sets forth the method by which Verizon Wireless may make CSPs available to the Eligible Entity listed on the STD Form 20 and the Schedule A document to which this Schedule A document is attached ("Eligible Entity") for purchase under the Contract. The Schedule A document also outlines the manner by which the Eligible Entity's active lines of service will be transitioned from the PA to the Contract, and it lists the CSPs available for purchase by the Eligible Entity under the Contract. Verizon Wireless reserves the right to make changes to CSPs and the Schedule A in its sole discretion, including add, discontinue, or alter any plan or Equipment (as defined below). Eligible Entity will be notified of any changes that affect its then-current CSP and a new STD Form 20 or equivalent documents will be processed. All capitalized terms not defined in this Schedule A document will have the meaning provided in the Contract.

Equipment: Verizon Wireless is able to make equipment under CSPs ("Equipment") available to the Eligible Entity at significantly lower prices than the manufacturer's list prices by offering various subsidies in exchange for the Eligible Entity meeting certain conditions. If the Eligible Entity moves the Equipment to a Lesser Price Plan (as defined below), or disconnects the Equipment from the Verizon network, at any time during the first 24 months after the Equipment is activated, the Eligible Entity must pay a Subsidy Recovery (as defined below). A Lesser Price Plan is any one of the following: (a) for smart phones, any plan that is less than \$19.99 per month, plus required data feature (voice and data bundles qualify) after any applicable discounts; (b) for internet devices, any plan that is less than \$19.99 per month after any applicable discounts; or (c) for basic phones, any plan that is less than \$14.99 per month after any applicable discounts. The Subsidy Recovery is the difference between the full retail price of the Equipment at time of purchase and the discounted price paid by the Eligible Entity for the Equipment, plus any additional service discounts, credits, waived fees, and other offers provided, less 1/24 of that amount for each month the Equipment was connected to the line of service at the original price plan.

Transition of California Participating Addendum # 7-10-70-16 ("PA") Service Plans to the CALNET C4-CVD-19-001-03 ("Contract"): The Parties agree to move identified active lines of service purchased under the PA by the Eligible Entity to the same 4G cellular service plan(s) (each a "Service Plan") available under the Contract. In the event a Service Plan purchased under the PA is not available for new lines-of-service under the Contract (including for purchase through the Site), the Eligible Entity will be allowed to continue with the Service Plan as a Customized Service Plan under the Contract until the line of service is either a) terminated, b) suspended or is otherwise set to inactive for more than 90 continuous days, or more than 180 days in any one year period, or c) moved to a different Service Plan available for purchase under the Site or otherwise under the Contract. All Purchase Orders issued as of the Effective Date must be placed under the Contract.

This Schedule A document together with the Contract set forth the understanding between the parties regarding the subject matter contained herein, and supersedes any and all previous communications, representations or agreements, whether oral or written. Any terms and conditions in a purchase order, acknowledgement, or any document other than a duly executed amendment to this Schedule A document or Contract, that are different or in addition to the terms and conditions of this Schedule A document or the Contract shall be deemed rejected and null and void.

PUBLIC SAFETY WIRELESS VOICE & DATA PLANS

Custom 4G Unlimited Smartphone Plan with Mobile Broadband Priority and Preemption for National Security, Public Safety, and Emergency Preparedness

Government Liable Subscribers Only

This plan is not eligible for monthly access fee discounts.

Only 4G LTE GSM/UMTS global-capable smartphones can be activated on this plan.

Monthly Access Fee	\$39.99 (16807)
Monthly Minutes in U.S	Unlimited
Domestic Data Allowance ⁽¹⁾	Unlimited
Domestic Messaging Allowance	Unlimited

Optional Features

Domestic Mobile Hotspot	\$5.00 additional per month (76440)
Push-to-Talk Plus	\$2.00 additional per month (device dependent) (81129/81174)

Notes: No domestic roaming or long distance charges. Coverage includes the Verizon Wireless 4G network; and the 3G and 3G Extended networks, while available. ⁽¹⁾ Data usage on this rate plan is not subject to speed reductions ("throttling") within a given billing cycle. However, in the event data usage exceeds 25GB each billing cycle for three (3) consecutive billing cycles, data throughput speeds will automatically be reduced to 600kbps for data usage exceeding 25GB per billing cycle on a go-forward basis. Data usage for actively engaged and deployed fire, police, emergency medical technicians, emergency management agency, and assigned federal law enforcement users on this plan will not be subject to speed reductions regardless of data usage during any billing cycle. To ensure users are able to maximize their high-speed data use for business applications, video applications will stream at 480p. This service plan includes Mobile Broadband Priority and Preemption. Mobile Broadband Priority ensures customers can connect to the network with priority by leveraging a pool of radio resources dedicated to enable their connection. Mobile Broadband Priority identifies the user with an Access Priority setting, giving them higher priority for network access than lower Access Class users. Preemption automatically activates to provide approved personnel uninterrupted access to the network in those uncommon times when the network is fully utilized. 911 calls are never preempted. This service plan is available to National Security, Public Safety, and Emergency Preparedness customers only as defined by the following NAICS (formerly SIC) Codes:

Custom 4G Unlimited Mobile Broadband Plan with Mobile Broadband Priority for National Security, Public Safety, and Emergency Preparedness

Government Liable Subscribers Only

This plan is not eligible for monthly access fee discounts.

Only 4G LTE GSM/UMTS global-capable devices can be activated on this plan.

Monthly Access Fee	\$37.99 (20312)
---------------------------	------------------------

Domestic Data Allowance⁽¹⁾	Unlimited
--	------------------

Notes: Current coverage details and non-domestic data rates can be found at www.verizonwireless.com. No domestic roaming or long distance charges. Coverage includes the Verizon Wireless 4G network; and the 3G and 3G Extended networks, while available. ⁽¹⁾ Data usage on this rate plan is not subject to speed reductions ("throttling") within a given billing cycle. However, in the event data usage exceeds 25GB each billing cycle for three (3) consecutive billing cycles, data throughput speeds will automatically be reduced for data usage exceeding 25GB per billing cycle on a go-forward basis. Data usage for actively engaged and deployed fire, police, emergency medical technicians, emergency management agency, and assigned federal law enforcement users on this plan will not be subject to speed reductions regardless of data usage during any billing cycle. To ensure users are able to maximize their high-speed data use for business applications, video applications will stream at 720p. This service plan includes Mobile Broadband Priority. Mobile Broadband Priority ensures customers can connect to the network with priority by leveraging a pool of radio resources dedicated to enable their connection. Mobile Broadband Priority identifies the user with an Access Priority setting, giving them higher priority for network access than lower Access Class users. Devices utilized in conjunction with this plan are limited to mobile device applications. Dedicated internet connections (including but not limited to, stationary wireless networking router devices), streaming video on non-smartphone devices (including but not limited to, body cameras and stationary video surveillance cameras), and IoT devices are expressly prohibited on this rate plan. This plan is only available to National Security, Public Safety, and Emergency Preparedness customers only as defined by the following NAICS (formerly SIC) Codes:

922110 Courts	923120 Administration of Public Health Programs
922130 Legal Counsel and Prosecution	928110 National Security
922140 Correctional Institutions	926120 Regulation and Administration of Transportation Programs
922150 Parole Offices and Probation Offices	926150 Regulation, Licensing, and Inspection of Misc. Commercial Sectors
922190 Other Justice, Public Order, and Safety Activities	926130 Regulation and Administration of Comms, Electric, Gas, and Other Utilities
485111 Mixed Mobile Transit Systems (Rail and Buses)	921150 American Indian and Alaskan Native Tribal Governments
485112 Commuter Rail Systems	921190 Other General Government Support
	921110 Executive Offices

State Associated Administrative Fee (SAAF) Charge: This plan is subject to a 2.5% fee applied to the Monthly Recurring Charge. Prices stated above do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Verizon Wireless Preemption Service Feature for National Security, Public Safety, and Emergency Preparedness

Government Liable Subscribers Only

Monthly Access Fee Per MDN

\$0.00

NOTE: Preemption Service ("Preemption") is a capability that reallocates network resources to customers so that they can connect in emergencies. In those uncommon times when the network is fully utilized, Preemption automatically activates to provide approved personnel uninterrupted access to the network. It helps ensure our national security, public safety, and emergency preparedness customers can continue to communicate with each other during times of high network use. Preemption capability is available on the Verizon Wireless 3G and 4G LTE data network. While Preemption capability may also be available on the networks of Verizon Wireless's domestic roaming partners, Verizon Wireless makes no representation of Preemption availability or reliability on such networks. Preemption is limited to select service rate plans and cannot be used in conjunction with devices or service plans utilized with dedicated internet connections (including but not limited to, stationary wireless networking router devices), streaming video on non-smartphone devices (including but not limited to, body cameras and stationary video surveillance cameras), and IoT devices are expressly prohibited from using this feature. Please note: Calls to 911 are never preempted. This feature is available to National Security, Public Safety, and Emergency Preparedness customers only as defined by the following NAICS (formerly SIC) Codes:

922110 Courts	923120 Administration of Public Health Programs
922130 Legal Counsel and Prosecution	928110 National Security
922140 Correctional Institutions	926120 Regulation and Administration of Transportation Programs
922150 Parole Offices and Probation Offices	926150 Regulation, Licensing, and Inspection of Commercial Sectors
922190 Other Justice, Public Order, and Safety Activities	926130 Regulation and Administration of Comms, Electric, Gas, and other Utilities

Verizon Wireless Plan and Feature Details

Verizon Wireless Plan and Feature Details only apply to the Customized Service Plans available on the CALNET contract.

Certain agreed upon revisions to the Contractor's standard terms are set forth in this Catalog Attachment A. Such mutually agreed upon terms shall take precedence over any conflicting terms in the Contractor's standard Acceptable Use Policy as may be modified from time to time.

To the extent that this Catalog Attachment A conflicts with other provisions in the Contract, the terms set forth in the Contract shall take precedence, pursuant General Provisions Section 14 (Order of Precedence). Catalog Attachment A may be modified by the mutual written consent of the parties.

Plans and Associated Charges: Billing, shipping and end-user address must be within an area where Verizon Wireless is licensed and provides service. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Unused monthly minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses **END** or the call disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free. Airtime may be charged when dialing toll-free numbers.

Anytime Minutes: Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. Coverage information is available at www.verizonwireless.com. Airtime is rounded up to the next full minute. Allowance minutes/Megabytes are not transferable except as may be available on plans with sharing. In order to gain access to coverage in newly expanding markets, subscribers must periodically dial *228 to update roaming information from voice or Smartphone devices; from the VZAccess Manager, go into "Options" and click "Activation," while in the National Enhanced Services Rate and Coverage Area every three months. This may alter the rate and coverage area. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

Long Distance: Unlimited domestic long distance is included when calling from the plan's rate and coverage area, unless otherwise specified in the plan.

Unlimited Messaging: Unlimited Messaging is included with select plans and is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless customers in the United States, (ii) Text, picture, and video messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands. Messaging is subject to Text, Picture, and Video Messaging Terms and conditions. Premium messages are not included. **Friends & Family for Business:** Calls directed to and received from an account's listed Friends & Family numbers shall not use Monthly Anytime Voice Minutes. For Nationwide for Business plans with 900 minutes or more or 450 minute plan with the share option can add up to ten (10) Friends & Family numbers. Only calls from Nationwide Coverage Area to designated domestic landline or wireless numbers (excluding Directory Assistance, 900 numbers, or customer's own wireless or Voicemail access numbers) may be added; all qualifying lines on an account share the same Friends & Family numbers, up to account's eligibility limits; My Verizon, My Business Account

or Verizon Enterprise Center is required to set up and manage Friends & Family numbers.

Mobile to Mobile Calling: Mobile to Mobile Calling minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless subscriber while in the Nationwide Rate and Coverage area. Mobile to Mobile calls must originate and terminate while both Verizon Wireless subscribers are within the Mobile to Mobile Calling area. Mobile to Mobile Calling is not available (i) with fixed wireless devices with usage substantially from a single cell site, (ii) for data usage including Push to Talk Plus calls, Picture or Video Messaging (iii) if Call Forwarding or No Answer/Busy Transfer features are activated, (iv) for calls to Verizon Wireless customers using any of the International services, (v) for calls to check Voice Mail, (vi) in those areas of Louisiana and Mississippi where the users roaming indicator flashes, (vii) in Canada and Mexico and (viii) to users whose current wireless exchange restricts the delivery of Caller ID And (viii) for incoming calls if Caller ID is not present or Caller ID Block is initiated. Mobile to Mobile Calling minutes will be applied before Anytime Minutes.

Night and Weekend Minutes: Apply to calls made in a calling plan's rate and coverage area only during the following hours: 12:00 am Saturday through 11:59 pm Sunday and 9:01 pm to 5:59 am Monday through Friday. If both Night and Weekend and Mobile to Mobile Calling minute allowances apply to a given call, Mobile to Mobile Calling minutes will apply before Night and Weekend minutes. However, if either allowance is unlimited, the unlimited allowance will always apply first.

Nationwide for Business Share Option: The Share Option is available to businesses with a minimum of five (5) Nationwide for Business lines on the same account with the share option. The Monthly Anytime Minutes of all lines on an account will be aggregated, and then allocated first to the line with the highest anytime minute usage, and then to the line with the next highest usage.

Push to Talk Plus: Push to Talk Plus (PTT+) capable Equipment required. Push to Talk Plus capable Equipment can only be used with a Push to Talk Plus calling plan. **Subscribers switching from a Push to Talk Plus Calling Plan to another calling plan may not be able to use certain Push to Talk Plus capable Equipment with the new plan.** Push to Talk Plus calls may only be made with other Verizon Wireless Push to Talk Plus subscribers. Push to Talk Plus Subscribers may initiate or participate on a call, simultaneously, with as many as 250 total participants (total is limited to (50) if interoperating between 3G and 4G participants). Administrators can be designated to manage the Push to Talk contact lists via a single website interface with a single user name/password. Existing Push to Talk Subscriber Equipment may require a software upgrade to use Push to Talk Plus or replacement with a Push to Talk Plus capable device. Push to Talk Plus is only available within the National Enhanced Services Rate and Coverage Area and WiFi access points. There will be a delay from the time a Push to Talk Plus call is initiated until the Push to Talk Plus call is first received by the called party. If an incoming voice call is received while on a Push to Talk Plus call the voice call may be answered and the Push to Talk Plus placed on hold. If an incoming Push to Talk Plus call is received while on a Push to Talk Plus call the PTT call icon can be selected to connect to the Push to Talk Plus call. If the incoming voice or Push to Talk Plus call is not answered a missed call alert will display. Network registration information will be sent to the Equipment each time it is powered on in the National Enhanced Services Rate and Coverage Area, each time the Subscriber travels into the National Enhanced Services Rate and Coverage Area, and every 12 hours if the Subscriber stays within the National Enhanced Services Rate and Coverage Area. While the updated network registration information is being sent to the Equipment, incoming voice calls will go directly to voice mail. Contact list cannot be modified from certain Equipment. Subscriber cannot prevent others who have the Subscriber's MTN from entering the MTN into their Push to Talk

contact list. Only one person can speak at a time during a Push to Talk Plus call. In-Call Talker Override (Talker Priority) allows a pre-determined user priority to take the floor to communicate urgent message over participant. Push to Talk Plus services cannot be used for (i) access to the Internet, intranets or other data networks, except as the device's native applications & capabilities permit, (ii) any applications that tether Equipment to laptops, personal computers or other devices for any purpose. Please visit our website www.verizonwireless.com for additional Push to Talk Plus information.

International Long Distance: You need International Eligibility to make international calls to most countries, but you can make calls to some North American destinations without it. Additional surcharges may apply when calling certain countries; see verizonwireless.com/International for details.

Verizon Wireless International Long Distance Value Plan: International Eligibility required to call most countries. Value Plan feature is not available on all Plans. Rates are subject to change without notice. Standard International Long Distance rates apply in addition to airtime charges per your Plan on calls made from the Verizon Wireless network. Rates and service availability may vary when your phone's banner displays "Extended Network." Value Plan rates apply only on calls to Value Plan Countries made from your Plan's Rate and Coverage Area. If a subscriber's Plan's Rate and Coverage Area includes calls to any Value Plan country, those calls will be billed per the Plan. Except when roaming on another carrier's network, in which case that carrier's rates, taxes and surcharges apply. For Value Plan subscribers, calls made from the Verizon Wireless network to countries not included in the Value Plan will be billed at standard International Long Distance rates. Additional surcharges may apply when calling certain destinations, see www.verizonwireless.com/international for details.

International Roaming: Some services, such as premium text messaging, directory assistance, entertainment lines and third-party services, may be available, and charges for these services will be billed (along with applicable toll charges) in addition to roaming rates. Message-waiting-indicator service is not available where Text Messaging is not available. When using International Phone, or International Data services, or if you subscribe to a Nationwide Plus Canada or Nationwide Plus Mexico Plan, and you're roaming near country borders, calls may be carried by a cell site located in a neighboring country and billed at that country's rates. Verizon Wireless will terminate your service for good cause if less than half of your voice or data usage over three consecutive billing cycles is on the Verizon Wireless National Enhanced Services Rate and Coverage Area. See verizonwireless.com/International for rates and destinations, which are subject to change without notice. International Eligibility required for GSM roaming, and for roaming in many destinations. Rates, terms and conditions apply only when roaming on participating GSM networks in published destinations. Availability of service, calling features, and Text messaging varies by country and network and may be restricted without notice. You must add International Eligibility to your account to roam in many destinations. Visit verizonwireless.com/narooming. By using Equipment outside the United States, subscriber is solely responsible for complying with all applicable foreign laws, rules and regulations ("Foreign Laws"), including Foreign Laws regarding use of wireless phones while driving and use of wireless camera phones. Verizon Wireless is not liable for any damages that may result from subscriber's failure to comply with Foreign Laws.

Roaming in GSM countries: GSM International Phone, activated in the United States with compatible subscriber Identity Module (SIM) card required. Rates, terms and conditions apply only when roaming on participating GSM networks in published International Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to receive incoming calls (including return calls from emergency services personnel) may be restricted. See www.verizonwireless.com for coverage and airtime rates. Service in certain countries may be blocked without prior notice. Text

messaging rates are subject to change. Text messages may be sent only to MTNs of (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text messaging. **Data Services:** Verizon Wireless charges you for all data and content sent or received using our network (including any network overhead and/or Internet Protocol overhead associated with content sent or received), as well as resolution of Internet Protocol addresses from domain names. Sending or receiving data using a virtual private network (VPN) involves additional VPN overhead for which you will be charged. Please note that certain applications or widgets periodically send and receive data in the background, without any action by the user, and you will be billed for such data use. Applications may automatically re-initiate data sessions without you pressing or clicking the **SEND** or connect button. Data sessions automatically terminate after 24 hours. A data session is inactive when no data is being transferred. Data sessions may seem inactive while data is actively being transferred, or may seem active when the data is actually cached and data is not being transferred. If you have a Data Only plan and use voice service, domestic voice calls will be billed.

Verizon Wireless strives to provide customers with the best experience when using our network, a shared resource among tens of millions of customers.

To further this objective, Verizon Wireless has implemented Network Optimization Practices designed to ensure that the overwhelming majority of data customers aren't negatively impacted by the inordinate data consumption of a few users. The reduction can last for the remainder of the current bill cycle and the immediately following bill cycle to ensure high quality network performance for other users at locations and times of peak demand. If you download an audio or video file, the file may be downloaded in sections or in its entirety; data charges will apply to the portion downloaded, regardless of whether you listen to or watch all of it. You may access and monitor your own data usage during a particular billing period, including during the Return Period, by accessing My Verizon online or by contacting Customer Service.

Data Services: Permitted Uses: You can use Verizon Wireless Data Services for accessing the Internet and for such uses as: (i) Internet browsing; (ii) email; (iii) intranet access (including accessing corporate intranets, email and individual productivity applications made available by your company); (iv) uploading, downloading and streaming of audio, video and games; and (v) Voice over Internet Protocol (VoIP).

Data Services: Prohibited Uses. You may not use our Data Services for illegal purposes or purposes that infringe upon others' intellectual property rights, or in a manner that interferes with other users' service, that violates trade and economic sanctions and prohibitions as promulgated by the Departments of Commerce, Treasury or any other U.S. government agency, that interferes with network's ability to fairly allocate capacity among users, or that otherwise degrades service quality for other users. Examples of prohibited usage include: (i) server devices or host computer applications that are broadcast to multiple servers or recipients such that they could enable "bots" or similar routines (as set forth in more detail (ii) below) or otherwise denigrate network capacity or functionality; (ii) "auto-responders," "cancel-bots," or similar automated or manual routines that generate amounts of net traffic that could disrupt net user groups or e-mail use by others; (iii) generating "spam" or unsolicited commercial or bulk e-mail (or activities that facilitate the dissemination of such e-mail); (iv) any activity that adversely affects the ability of other users or systems to use either Verizon Wireless' services or the Internet-based resources of others, including the generation of dissemination of viruses, malware, or "denial of service" attacks; (v) accessing or attempting to access without authority, the information, accounts or devices of others, or to penetrate, or attempt to penetrate Verizon Wireless' or another entity's network or systems; or (vi) running software or other devices that maintain continuous active Internet connections when a computer's connection would otherwise be idle or "any keep alive"

functions, unless they adhere to Verizon Wireless" requirements for such usage, which may be changed from time to time.

Verizon Wireless further reserves the right to take measures to protect our network and other users from harm, compromised capacity or degradation in performance. These measures may impact your service, and Verizon Wireless reserves the right to deny, modify or terminate service, with or without notice, to anyone Verizon Wireless believes is using Data Services in a manner that adversely impacts the Verizon Wireless network. **Verizon Wireless may monitor your compliance, or other subscribers' compliance, with these terms and conditions, but Verizon Wireless will not monitor the content of the communications except as otherwise expressly permitted or required by law. [See verizonwireless.com/privacy]**

Unlimited Data Plans and Features (such as NationalAccess, BroadbandAccess, Push to Talk Plus, and certain VZEmail services) may ONLY be used with wireless devices for the following purposes: (i) Internet browsing; (ii) email; and (iii) intranet access (including access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation). The Unlimited Data Plans and Features MAY NOT be used for any other purpose. Examples of prohibited uses include, without limitation, the following: (i) continuous uploading, downloading or streaming of audio or video programming or games; (ii) server devices or host computer applications, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing; or (iii) as a substitute or backup for private lines or dedicated data connections. This means, by way of example only, that checking email, surfing the Internet, downloading legally acquired songs, and/or visiting corporate intranets is permitted, but downloading movies using P2P file sharing services and/or redirecting television signals for viewing on laptops is prohibited.

For individual use only and not for resale. We will protect our network from harm, which may impact legitimate data flows. We will limit throughput or amount of data transferred exceeding 25 GB in any given billing cycle on any line, in any given billing cycle, for all additional usage for the remainder of the then-current bill cycle for the line that exceeds the data usage, and reserve the right to deny or terminate service, without notice, to anyone we believe is using an Unlimited Data Plan or Feature in any manner prohibited above or whose usage adversely impacts our network or service levels. Anyone using more than 25 GB per line in a given billing cycle is presumed to be using the service in a manner prohibited above, and we reserve the right to immediately terminate the service of any such person without notice. We reserve the right to adjust data throughput limitation thresholds to as low as 5GB in with prior written notice. We also reserve the right to terminate service upon notification to the customer.

Unlimited VZAccess and VZEmail: NationalAccess, BroadbandAccess, and InternationalAccess data sessions may be used for the following purposes: (i) Internet browsing, (ii) e-mail, and (iii) intranet access (including access to corporate intranets, e-mail and individual productivity applications like customer relationship management, sales force and field service automation). Unlimited VZAccess, VZEmail and Push to Talk Plus services cannot be used (i) for uploading, downloading or streaming of movies, music or games, (ii) with server devices or with host computer applications, other than applications required for BlackBerry or Wireless Sync service, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, Voice over IP (VoIP), automated machine-to-machine connections, or peer-to-peer (P2P) file sharing, or (iii) as a substitute or backup for private lines or dedicated data connections. Additionally, Unlimited VZEmail services cannot be used for, (i) access to the Internet, intranets or other data networks, except as the Equipment's native applications and capabilities permit, or (ii) for any applications that tether Equipment to laptops or personal computers other than for use of the Wireless Sync or BlackBerry Solutions. Unlimited BroadbandAccess and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless Subscriber has Mobile IP (MIP) capable Equipment

Data Roaming: International Eligibility is needed to roam in many destinations. Current coverage details, and list of Other Available Countries can be found at www.verizonwireless.com/International.

International Data Optional Features: International PC Card required for international use. International PC Cards will not work in the United States or Canada and International Data Optional Features subscribers will need a NationalAccess or Mobile Broadband PC card for domestic use. The domestic and International PC Cards cannot be used at the same time. Prior to leaving the United States, subscribers must install International Data Optional Features VZAccess ManagerSM and run the OTA wizard. International Data Optional Features subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Verizon Wireless reserves the right to terminate the service of any subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles.

International Email SIM Cards: SIM Cards are available for use with your International PC Card, International Smartphone, or International Phone. Verizon Wireless is not responsible for any unauthorized use of subscriber's SIM Cards and subscriber must safeguard security codes. Placing your InternationalEmail SIM in any other non BlackBerry or Smartphone device could result in additional charges or termination of service. Upon termination of service, subscriber must destroy SIM Card

M2M Data Plan Terms and Conditions

A data session is inactive when no data is being transferred, and may seem inactive while data is actively being transferred to a device, or seem active when actually cached and not transferring data. Customer must maintain virus protection when accessing the service and is responsible for all data sent and received including "overhead" (data that is in addition to user-transmitted data, including control, operational and routing instructions, error-checking characters as well as retransmissions of user-data messages that are received in error) whether or not such data is actually received. Verizon Wireless will not be liable for problems receiving Service that result from Customer's device.

Megabyte (MB) Data Plans: M2M data usage is rounded to next full kilobyte at end of each billing cycle. Any unused portion of the megabyte allowance is lost. Equipment will not indicate kilobyte usage.

Data Roaming I-Dial is needed to roam in many destinations. Only the Canadian Broadband Rate and Coverage Area supports EV-DO.

M2M Data Plan Share Options

Share Options: Sharing is available only among Government Subscribers on applicable M2M Low Usage and High Usage calling plans.

Account Share: Customer may activate up to 15 share groups per account. Sharing is available only among M2M Lines on the Mobile Broadband M2M Account Share Plans **on the same billing account, in the same usage group** (Low Usage and High Usage plans cannot share with each other). Unused KBs will be distributed to M2M Lines with an overage on an as needed basis to M2M Lines **on the same billing account** that have exceeded their MB allowance during the same monthly billing period. At the end of each bill cycle any unused KBs allowances will be applied to the overages of the other M2M Lines on the same account beginning with the line with the lowest overage need until depleted. Customers subscribing to Mobile Broadband M2M Account Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Profile Share Plans.

Profile (Multi-Account) Share: Customer may activate one (1) share group per profile (Low Usage and High Usage plans cannot share with each other); however, customer may have multiple bill accounts on the same profile. Sharing is available only among M2M Lines on the Mobile Broadband M2M Multi-Account Share Plans **on the same profile, in the same usage group**. Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines **on the same profile**. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans.

Note: ¹A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts. Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice.

Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Charge

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) collected by Verizon is a percentage of the customer's monthly bill and is used to defray the costs of the FUSF. The FUSC is collected on most items on the bill, other than data charges for wireless broadband Internet access, equipment charges and taxes. As of April 1, 2020, the basic FUSC rate is 19.60% and changes quarterly. The FUSC rate for bundled minute plans is 5.67% if the customer does not exceed the included number of minutes. The 19.60% rate applies to long distance interstate calls that exceed the customer's included bundle of minutes. Other services, such as VOIP, are charged a lower FUSC rate.

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Nights and Weekends feature
- Toll free feature

The quarterly percentage rate described above for the FUSC is applied in our billing system.

Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The Regulatory Charge is an assessment that helps defray our ongoing costs of complying with various governmental mandates and assessments.

Examples include:

- The cost of the license fees assessed by the FCC.
- Costs assessed by the FCC to administer local number portability requirements.

This charge is subject to change over time upon notice and is taxable in most jurisdictions.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

- **Contract end: 05/22/2023**
- **Number of optional extensions and extension duration(s): 2 extensions, 2 years per extension**

Pursuant to the Contract C4-CVD-19-001-03, which is incorporated herein by reference, any eligible non-state public entity (herein "Non-State Entity"), as authorized in Government Code section 11541 is allowed to order services and products (collectively "Services") solely as set forth in the Contract.

To establish CALNET eligibility, the Non-State Entity shall be required to have a [Non-State Entity Service Policy and Agreement](#) (NESPA) on file with the CDT CALNET Program, prior to submitting this Authorization to Order (ATO).

Once the Non-State Entity and the Contractor approve and sign the ATO, the Contractor shall deliver this ATO to the CALNET Program for review and approval. No Service(s) shall be ordered by the Non-State Entity or provided by the Contractor until both parties and the CALNET Program execute this ATO.

By executing this ATO, the [Non-State Entity] may subscribe to the Service(s), and the Contractor agrees to provide the Service(s), in accordance with the terms and conditions of this ATO and the Contract. Service catalogs, rates and Contract terms are available at [the CALNET Program website](#).

The ATO, and any resulting order for Service(s), is a contract between the Non-State Entity and the Contractor. As such, the CDT will not facilitate, intervene, advocate or escalate any disputes between the Non-State Entity and the Contractor or represent the Non-State Entity in resolution of litigated disputes between the parties.

The ATO shall not exceed the term of the Contract and shall remain in effect for the duration of the contract unless:

- The CDT, at its discretion, revokes the approved ATO; or
- The Non-State Entity terminates the ATO, for specific Service(s) in part or in total, prior to termination of the Contract, by providing the Contractor with a 30 calendar days' prior written notice of cancellation.

The Non-State Entity, upon execution of the ATO, certifies that:

- The Non-State Entity understands that the Contractor and the CDT may, from time to time and without the Non-State Entity's consent, amend the terms and conditions of the Contract thereby affecting the terms of the service the Non-State Entity receives from the Contractor.
- The Non-State Entity has reviewed the terms and conditions, including the rates and charges, of the Contract.
- The Non-State Entity understands and agrees that the Contractor invoices for Service(s) subscribed to under the Contract are subject to review and/or audit by the CDT, pursuant to provisions of the Contract.
- All Service(s) ordered under the ATO will be submitted to the Contractor using an authorized purchasing document, signed by the Non-State Entity's authorized signatory. Any additions, changes to, or deletions of Service(s) shall be accomplished by submission of a purchasing document to the Contractor, noting the changes.
- The Non-State Entity understands and agrees that the Contractor shall provide the CALNET Program all data, invoices, reports and access to trouble tickets for Service(s) subscribed to under the Contract, pursuant to provisions of the Contract. Upon execution of the ATO, the Non-State Entity authorizes the CALNET Contractor to release the Non-State Entity's Customer Proprietary Network Information (CPNI) to the CALNET Program for purposes of administering the Contract.
- The Non-State Entity understands that, the Contractor shall bill the Non-State Entity; and the Non-State Entity shall pay the Contractor according to the terms and conditions, and rates set forth in the Contract for such Service(s).

NON-STATE ENTITY SERVICE POLICY AND AGREEMENT (NESPA)

The California Network and Telecommunications Program (CALNET) service offerings are primarily intended to meet State entity requirements. However, CALNET services may be purchased by qualified non-State entities. To use the CALNET next generation of contracts, non-State entities are required to self-certify that their organization qualifies for one of the CALNET eligibility criteria below.

Authorized Entity Criteria

Please select one of the following:

- ☒ Local government entities are defined as "any city, county, city and county, district or other governmental body empowered to expend public funds for the acquisition of goods" per Public Contract Code Chapter 2, Paragraph 10298 (a) (b). While the State makes this contract available to local governmental entities, each local governmental entity should determine whether this contract is consistent with its procurement policies and regulations.
- ☐ Entirely 100% tax supported entity
- ☐ A governmental entity with a Joint Powers Agreement (JPA)
- ☐ Federally recognized Indian Tribe
