Dear Ms. McGonagle & Mr. Thompson

This is to acknowledge that your **Less Than 3 Acre Conversion Exemption** was accepted on **May 13, 2015**. It has been assigned the above listed Exemption number. All timber operations must be complete within one year. All conversion activities must be complete within two years, unless under permit by local jurisdiction.

*****Please read the enclosed notice regarding Listed Anadromous Salmonids, Slash Clean-up, Sudden Oak Death, Pitch Canker, and Operations between October 15 – May 1.*****

In addition, please note the requirement for submittal of the Timber Operations Work Completion and/or Stocking Report (blue form) upon completion of the project.

Compliance with all provisions of the Forest Practice Act, rules pursuant to Section 1104.1(a)--Title 14 of the California Code of Regulations, will be determined by future inspection(s).

If you have any questions you may contact your local CAL FIRE Forest Practice Inspector or me at (707) 576-2959.

Sincerely,

Jeremiah Steuterman

6. The following are limitations or requirements for timber operations conducted under a Less Than Three Acre Conversion Exemption (Notice, Notice of Conversion Exemption, Conversion Exemption):

- A. Timber operations shall comply with all other applicable provisions of the Forest Practice Act and regulations, county general plans, zoning ordinances, and any implementing ordinances; copies of the state rules and regulations may be found on CAL FIRE's Web Page on the Internet at <http://www.fire.ca.gov>.
- B. All timber operations shall be complete within one year from the date of acceptance by CAL FIRE.
- C. All conversion activities shall be complete within two years from the date of acceptance by CAL FIRE unless under permit by local jurisdiction. Failure to complete the conversion requires compliance with stocking standards and stocking report requirements of the Forest Practice Act and Board of Forestry and Fire Protection regulations.
- D. The timber operator shall remove or dispose of all slash or woody debris in accordance with 14 CCR § 1104.1(a)(2)(D)(1)-(9). The timberland owner may assume responsibility for the slash treatment, provided the landowner acknowledges in writing to CAL FIRE such responsibility at the time of submission of this notice. The specific requirements shall be included with the acknowledgement.
- E. Timber operations may be conducted during the winter period. Tractor operations in the winter period are allowed under any of the conditions described in 14 CCR § 1104.1(a)(2)(E)1.-3.
- F. No timber operations are allowed within a watercourse and lake protection zone unless specifically approved by local permit (e.g., county, city).
- G. No timber operations shall be conducted until CAL FIRE's notice of acceptance is received and a valid copy of this notice and CAL FIRE's acceptance shall be kept on site during timber operations.
- H. No sites of rare, threatened or endangered plants or animals or species of special concern shall be disturbed, threatened, or damaged.
- I. No timber operations are allowed on significant historical or archeological sites.
- J. Within one month of the completion of timber operations, including slash disposal, the timberland owner shall submit a work completion report to CAL FIRE.
- K. A violation of the conversion exemption, including a conversion applied for in the name of someone other than the person or entity implementing the conversion in bona fide good faith, are violations of the Forest Practice Act and penalties may accrue up to ten thousand dollars (\$10,000) for each violation pursuant to Article 8 (commencing with Section 4601).

6. I, _____, declare as the authorized designee of the County Board of Supervisors that this conversion exemption is in conformance with all county regulatory requirements, including public notice. (If the county has authorized a designee this item **MUST** be completed. If it has not, see Item 7.)

Project Description

This conversion proposes to convert timberland into agricultural sites. Additionally, a seasonal road is proposed connecting two existing seasonal roads to service one of the conversion areas. Lastly, a area is being converted to facilitate the construction of a well. Per the Humboldt County General Plan, the conversion exemption area is presently zoned Timber Production (TPZ). Humboldt County's Grading and Open Space Ordinance does not apply to this project because the conversion exemption area is zoned TPZ, and the property is greater than 3 acres in size. Consequently, Item 6 is not signed by the County's designee. The RPF has attached an e-mail from Humboldt County Planning, which states that no County review is required for Less Than 3-Acre Conversion Exemptions on TPZ lands. Agriculture is a principally permitted activity on TPZ lands. Frank Lynch, Trinity County Senior Planner was contacted on 4-30-2014. He verified that the Trinity County Board of Supervisors has not designated a representative to sign Item 6 and that the proposed project is in conformance with Trinity County regulations.

Addendum 14CCR 1104.1(a)(1)(E)(1-4)

The timberland owner has certified via his signature, under penalty of perjury, that this is a one-time conversion to Agriculture. The timberland owner understands that a "Bona Fide Intention or bona fide Intent" is a present, sincere intention of the applicant to conform with and successfully execute the conversion plan, as determined by the Director in accordance with provisions of Sec. 1105.2 (Ref.: Sec. 4623, PRC). The timberland owner, acting as an individual, acting as a member of a partnership, or acting as an officer or employee of a corporation or other legal entity, has not obtained an exemption pursuant to this section in the last five years.

Addendum 14CCR 1104.1(a)(2)(F)

The conversion area contains no watercourses and is not located within a WLPZ or ELZ.

Addendum 14CCR 1104.1(a)(6)

The extent of the vegetation removal and site preparation required for the conversion;

This conversion consists of early successional vegetation removal and treatment of logging slash. No major excavation will be necessary to make the site useable for its intended non-timber use.

The suitability of soils, slope, aspect, and microclimate for the stated non-timber use;

The soils, slope, aspect, and microclimate are all suitable for agriculture, which is already occurring on the property.

Addendum 14CCR 1104.1(a)(2)(D) - Treatment of Logging Slash and Woody Debris.

1. Unless otherwise required, slash greater than one inch in diameter and greater than two feet long, and woody debris, except pine, shall receive full treatment no later than April 1 of the year following its creation, or within one year from the date of acceptance of the conversion exemption by the Director, whichever comes first.
2. All pine slash three inches and greater in diameter and longer than four feet must receive initial treatment if it is still on the parcel, within 7 days of its creation.
3. All pine woody debris longer than four feet must receive an initial treatment prior to full treatment.
4. Initial treatment shall include limbing woody debris and cutting slash and woody debris into lengths of less than four feet, and leaving the pieces exposed to solar radiation to aid in rapid drying.
5. Full treatment of all pine slash and woody debris must be completed by March 1 of the year following its creation, or within one year from the date of acceptance of the conversion exemption by the Director, whichever comes first.
6. Full slash and woody debris treatment may include any of the following:
 - a. Burying;
 - b. Chipping and spreading;
 - c. Piling and burning; or
 - d. Removing slash and woody debris from the site for treatment in compliance with (a)-(b). Slash and woody debris may not be burned by open outdoor fires except under permit from the appropriate fire protection agency, if required, the local air pollution control district or air quality management district. The burning must occur on the property where the slash and woody debris originated.
7. Slash and woody debris, except for pine, which is cut up for firewood shall be cut to lengths 24 inches or less and set aside for drying by April 1 of the year following its creation. Pine slash and woody debris which is cut up for firewood shall be cut to lengths 24 inches or less and set aside for drying within seven days of its creation.
8. Any treatment which involves burning of slash or woody debris shall comply with all state and local fire and air quality rules.

Att: Jeremiah Steuterman,

This is an email to clarify the questions you had regarding this less than 3-acre conversion.

1 - The Assessor Parcel information we used was from 2015. One useful tool in Humboldt County is their web GIS tool: (<http://www.humboldt.gov/1357/Web-GIS>) which is generally updated regularly.

2 - Logs will be loaded from small unmappable 'landings' off of the roads.

Pleased let me know if I can be of further assistance. Thanks, Nick

Anita asked me to follow up on an email you had sent her regarding Less Than 3-Acre Conversion Exemptions. For non-TPZ lands, the County requires a Building Inspector to verify that there are no Streamside Management Areas or other sensitive habitat in order to sign off the exemption. In residential areas, it may require a Special Permit from the Planning Division. On TPZ lands, no County review is required for Less Than 3-Acre Conversion Exemptions or 150-foot Fire Hazard Exemptions. Hope this answers your questions. Please contact me if you have any additional questions.

The County does not have a designee and I am not responding as that individual. I can state, from a zoning perspective, that the County does not have any regulation that would prohibit a person from cutting/harvesting trees on their own property.
