Subject: PLN-2021-17005

August 2, 2021

Dear Planning Commision,

I am writing to you again to voice my opposition to the proposed wireless cell tower project PLN-2021-17005, located on Sun Valley property in the Arcata Bottoms.

I have sent in several letters on record. I have still never received an answer as to Why PWM Inc. has built out a tower already in Arcata on South G St. and it's Still vacant/empty of any wireless carriers?? They should use that already built structure instead of building another one out in the Bottoms.

Thank you,
Ramona Fair
