1. Salmonid Restoration Federation, Marshall Ranch Streamflow Enhancement Project
Record Number PLN-2019-15661
Assessor's Parcel Number 220-061-011.
Briceland area

The Project entails construction of 10 million-gallons of off-stream water storage. Water storage is proposed in two ponds and five tanks designed to fill with rainwater (~3.5 million gallons) and water diverted from two Redwood Creek tributaries during the wet season (~6.5 million gallons). The Project seeks to improve habitat for coho salmon and steelhead in Redwood Creek, an important salmon-bearing tributary, by addressing the limiting factor of low summer streamflows. The storage facilities have been sited and designed to fill during the winter wet season and release their stored water directly to Redwood Creek during the five-month dry season providing increased flows of approximately 30 gallons per minute along a 5.5-mile stream reach. Other ancillary Project components include installation of one large wood habitat enhancement and bank stabilization structure in Redwood Creek, stabilization of two seasonal tributaries, construction of a passive on-demand cooling and filtration gallery to provide treatment of the flow releases as needed, construction of an off-grid solar energy power system to support operations, upgrading access roads, riparian exclusion fencing for cattle, and installation of plumbing infrastructure to allow water stored in the tanks to be utilized for domestic, ranch, and fire suppression needs.

Public Hearing opened

A motion was made by Commissioner Mitchell, seconded by Commissioner Levy, that the Salmonid Restoration Federation, Marshall Ranch be approved as recommended. The motion carried by the following vote:

I. PUBLIC WORKSHOP

1. PROPOSED COMMUNICATIONS FACILITIES ORDINANCE
 Record Number PLN-2021-17452.

The proposed ordinance affects all unincorporated areas of Humboldt County. The purpose and intent of this Telecommunications Ordinance is to provide a uniform and comprehensive set of standards for the development, siting and installation of wireless telecommunications facilities. These standards do all the following: protect and promote the public health, safety and welfare of the residents of the unincorporated areas of Humboldt County; protect aesthetic values in accordance with the guidelines and intent of the Telecommunications Act of 1996; encourage siting in preferred locations to help preserve the County’s rural character, including the protection of scenic, natural and cultural resources; and minimize the intrusion of these uses into residential areas. The proposed ordinance uses a tiered approach to permitting communication facilities: the lowest tier (“Tier 1”) applies a streamlined permit process to easily allow telecommunication facilities least likely to have any impacts. Conversely, the highest tier (“Tier 3”) requires a public review process through conditional use permits for projects most likely to have impacts. Since this is a public workshop, no action will be taken by the Planning Commission. Instead, the Planning Commission will be asked to take public comment and provide informal feedback that will be used to develop a public hearing draft for review by the Planning Commission at a later date.

A motion was made by Commissioner Mitchell, seconded by Commissioner McCavour, that the Proposed Communications Facilities Ordinance be continued to the 1.20.22 meeting.. The motion carried by the following vote:
