DISCUSSION:
In 2015, the Board began to receive informational reports from county departments on core services and budget requests. This process allowed the departments and the Board to have more time to discuss and examine budget requests and implications. These presentations also allow for public participation prior to the budget hearings in early June.

As with last year, staff and your Board are working to close another General Fund budget deficit. Likewise, many non-General Fund departments are facing similar challenges in closing the gap between anticipated revenues and expenditures. As presented at the midyear budget review on Feb. 6, 2024, the fiscal year (FY) 2024-25 projected preliminary General Fund deficit is \$12.3 million. Prior to department presentations on May 6, the County Administrative Office presented an initial projection of the budget outlook for the coming years.

Departments have been asked to report on core services, innovative approaches to service delivery, department challenges, goals and accomplishments and any anticipated additional appropriations requests. Departments were instructed by your Board to limit additional General Fund appropriation requests to one-time expenditures.
