SUBJECT:

Allocation Award from the California Department of Public Health for the Hepatitis C Virus Prevention and Collaboration Project for the Term of July 1, 2024, through June 30, 2028

RECOMMENDATION(S):

That the Board of Supervisors:

1. Approve acceptance of award with the California Department of Public Health (CDPH) for \$800,324 for the term of July 1, 2024, through June 30, 2028;
2. Authorize the Department of Health and Human Services (DHHS) - Public Health Director, or designee thereof, to sign the Acceptance of Award document; and
3. Authorize the Director of Public Health, or a designee thereof, to execute all future contracts, amendments, and documents directly related to the award upon review and approval of the County Administrative Office, County Counsel, and Risk Management.

STRATEGIC PLAN:

This action supports the following areas of your Board’s Strategic Plan.

Area of Focus: Safe & Healthy Communities

Strategic Plan Category: 1002- Remove barriers to quality healthcare

DISCUSSION:

The County of Humboldt is continuing its work with CDPH to provide public health activities related to monitoring, prevention, testing, and linkage to and retention in care activities for the most vulnerable and underserved individuals living with, or at high risk for, hepatitis C virus (HCV) infection in collaboration with a community-based organization (CBO).

Allocated funds are to be used to implement a public education and outreach program to raise hepatitis C awareness in high-risk groups, physician's offices, among healthcare workers, and in healthcare facilities by including hepatitis C counseling, education, and testing, as appropriate, into existing local state-funded programs including those addressing HIV, sexually transmitted diseases (STDs), and other appropriate programs.

Key strategic targets for HCV prevention and control are enhancement of surveillance and case follow-up for acute hepatitis C cases and other priority populations; testing, linkages to care, care coordination, and assurance of treatment for hepatitis C infection; partnerships to identify and address systemic barriers; and implementation of community-based services through partnerships between Public Health and CBOs. This grant requires that no less than 50 percent of the funds allocated shall be provided to a community-based organization that can provide these activities and demonstrates expertise, history, and credibility working successfully in engaging the most vulnerable and underserved individuals living with, or at high risk for, HCV infection.

This agreement will allow DHHS - Public Health to provide services throughout Humboldt County to minimize new HCV infections and to maximize the number of people with HCV accessing appropriate care, treatment, and support by partnering with the county's largest provider of these services: Open Door Community Health Clinics.
