DISCUSSION:

Employee engagement (EE), the degree to which employees are cognitively and emotionally committed their job and to an organization, is critical to the achievement of organization goals. Complexities associated with the current operating environment present an ideal opportunity to measure staff engagement levels across the County of Humboldt. The purpose of the current EE campaign is to assess staff engagement levels across the county and its departments to learn what the county can do to maintain and/or improve engagement levels. While analysis of survey results is ongoing, the Office of Human Resources is pleased to share the preliminary results of its 2023

Employee Engagement Campaign.
