2. Adopt the new classification of Senior Radio Communications Technician (classification # 0190, salary range 464) into the classification plan effective the first pay period following board approval; and
3. Approve the allocation of 1.0 full-time equivalent (FTE) Senior Radio Communications Technician and 1.0 FTE Radio Communications Technician I/II into the Communications budget unit (151); and
4. Adopt the resolution (Attachment 1) approving the amendment of the January 1, 2022 - December 31, 2024 Memorandum of Understanding between the County of Humboldt and the American Federation of State, County, and Municipal Employees and the Comprehensive

Compensation Schedule and Classification Summary effective May 28, 2023 (Attachment 2).

SOURCE OF FUNDING:

Communications Budget (3521-151).

DISCUSSION:

The Human Resources Department conducted a classification review of the Communications Division within the County Administrative Office and discovered a need for permanent, full-time allocations for the essential radio communications work that is currently being performed by contractors and extra help staff.

Human Resources conducted a thorough review of the new classifications for Radio Communications Technician I/II and Senior Radio Communications Technician, which included salary recommendations for the respective classifications. After careful consideration of the data, Human Resources recommends the following:

- Adopt the new classification of Radio Communications Technician I/II and Senior Radio Communications Technician into the classification plan;
- Allocate 1.0 FTE Radio Communications Technician I/II and 1.0 FTE Senior Radio Communications Technician into the Communications Division; and
- Place these new allocations in the same salary range as the IT Technician series, such that Radio Communications Technician I/II is in salary ranges 431 and 451 and Senior Radio Communications Technician is in salary range 464.

The Communications Division requires this staffing level is due to the complexity and critical nature of the County of Humboldt's radio infrastructure, which requires skilled technicians to ensure its reliable and secure operation. With these positions in place, the County can maintain, repair, and upgrade its radio equipment in a timely and efficient manner, providing a dependable communications system.

Therefore, to ensure that the County of Humboldt is offering appropriate compensation and accurate classifications, the Human Resources Department recommends that your board approves these recommended changes based on the research done by the Human Resources Department.
