DISCUSSION:

The Humboldt County Planning and Building Department, Planning Division received applications requesting a General Plan Amendment, Zone Reclassification, Tentative Subdivision Map, Planned Unit Development, Development Agreement and Special Permit for a mixed-use development with 320 residential units and approximately 22,000 square feet of commercial development. The Tentative Subdivision Map would create 146 single-family lots, six lots to support construction of up to 174 multi-family residential units, two commercial parcels supporting up to approximately 22,000 square feet of commercial space, and six parcels totaling 21.73 acres to be dedicated to the County for future trail management and open space. A Development Agreement is included that will permit the project to be developed in nine phases over a period of 20 years. The proposed project would require annexation

into Humboldt Community Services District for the provision of utilities. The project includes an amendment to the Eureka Community Plan land use map to change the land use designation from Residential Low Density (1-7) to Commercial General (CG) and Residential Medium Density (RM) and to reclassify the zoning district from One Family Residential (R-1) with overlays for Planned Development, Recreation and Greenway and Open Space to Neighborhood Commercial (C-1) and Apartment-Professional (R-4) zoning. The project will be a Planned Development. A Special Permit is required for work within Streamside Management Areas for two isolated wetlands in the northern part of the project, a wetland at the proposed location of the Arbutus Street extension and stream crossings related to the extension of Redwood Street.

Development agreements are contracts negotiated between project applicants and public agencies that govern allowable land uses for development consistent with zoning and land use policies. These agreements are intended to serve as a tool to strengthen a community's commitment to comprehensive land use planning. The appropriate use of development agreements can provide the County with public benefits by requiring the developer to provide certain public improvements and benefits that would not otherwise be obtained through applicable development approval processes. The development agreement provides a developer with greater certainty in the development approval process by vesting certain development rights.

In return for recognizing certain vested rights and avoiding future conflicting enactments for a period of 20 years that would limit or reduce density, expand developers obligations, alter the development standards for roads and improvements, among other terms, the developer has committed to certain public benefits including the approximately 22 acres to remain as undeveloped open space that would be dedicated to the county for future trail management or conveyed in fee, the placement of an off-site water storage tank that would be dedicated to and managed by the Humboldt Community Services District (HCSD), and adding to the supply of both multi-family and single-family housing in the county, as well as retail and office commercial space in close proximity, at least 25 bicycle storage racks, four bicycle lockers, a transit stop, and other improvements and dedications described in the conditions of approval.

At their Jan. 6, 2022 meeting, the Planning Commission passed resolutions recommending that the Board certify the proposed project's environmental impact report and approve the project; at their Feb. 3, 2022 meeting the Planning Commission passed a resolution recommending that the Board approved the Development Agreement.

Regarding indemnification, the Board may add a condition of approval to the project requiring the applicant to enter into an indemnification agreement with the county that would cover the project approvals and associated challenges (including a challenge based on the California Environmental Quality Act). The applicant previously indicated he would not enter into such an agreement. While the Development Agreement does include indemnification provisions, it is advisable to also obtain an indemnification agreement on the project. Staff will be ready to provide the Board with suggested language if the Board wishes to add this condition.

Resolutions are attached here for Board consideration to:

1. Make the appropriate environmental findings and certify the Final EIR, adopt the Statement of Overriding Considerations and adopt the Mitigation, Monitoring, and Reporting Program (Attachment 1);
2. Make the project findings and approve the requested entitlements - a General Plan Amendment, Zone Reclassification, Tentative Subdivision Map, Planned Unit Development and Special Permit (Attachment 2); and

The Development Agreement and the associated ordinance are attached for the Board's consideration. The Department will bring back a resolution regarding the Development Agreement at the Board meeting when the Development Agreement will be agendized for adoption (Attachment 3). Also attached for Board consideration is a draft Ordinance reclassifying zoning districts within the project site.

FINANCIAL IMPACT:

There will be no impact on the General Fund. The applicant is responsible for paying all actual costs involved.

STRATEGIC FRAMEWORK:

This action supports the Board's Strategic Framework by retaining existing and facilitating new living-wage private sector jobs and housing .

OTHER AGENCY INVOLVEMENT:

The Development Agreement was reviewed by County Counsel.

ALTERNATIVES TO STAFF RECOMMENDATIONS:

The Board could determine that the environmental project findings cannot be made, and/or that Final EIR should not be certified, and/or the entitlements or Development Agreement should not be approved and and/or the zone reclassification ordinance should not be adopted. Staff believes the necessary findings may be made, so staff does not recommend further consideration of this alternative.
