Title: Patient 2 Patient, Inc.; Conditional Use Permit and Special Permit
 Record Number: PLN-12426-CUP (filed 12/23/2016)
 Assessor Parcel Numbers (APN) 214-142-012
 Wood Ranch area (Redway)

A Conditional Use Permit and Special Permit to recognize lawful pre-existing cannabis cultivation and authorize relocation and expansion of cultivation activities on an approximately 361-acre parcel. The project includes two distinct parts. Part 1 involves a Special Permit to authorize development within riparian and wetlands areas as part of remediation and restoration of approximately 6.7 acres of land disturbance associated with seven (7) discrete areas historically used for cannabis cultivation. Part 2 involves a Conditional Use Permit to allow development and operation of approximately 86,000 square feet of Outdoor cannabis cultivation in greenhouses within an approximately 6-acre area in the northern portion of the project parcel. The Conditional Use Permit is being requested pursuant to the Humboldt County Commercial Cannabis regulations which allow up to 1-acre of cultivation per 100 acres on parcels where 320 acres or larger in size. The amount of cultivation area proposed is approximately one third larger (33%) in size than historic cultivation levels managed during the peak of prior lawful pre-existing operations at the property and will accommodate relocation of cultivation activities from the seven former sites targeted for remediation and restoration.
