

# COUNTY OF HUMBOLDT

## Legislation Details

**File #:** 22-1588      **Version:** 1      **Name:**  
**Type:** Zoning Item      **Status:** Consent Agenda  
**File created:** 11/23/2022      **In control:** Planning Commission  
**On agenda:** 12/1/2022      **Final action:**  
**Title:** High Grade 007, LLC Conditional Use Permit  
Record Number PLN-12569-CUP  
Assessor's Parcel Number (APN) 208-341-021  
Dinsmore area

A Conditional Use Permit for 10,000 square feet (SF) of existing outdoor light-deprivation cultivation operation in six greenhouses on two flats, along with 971 SF of ancillary nursery propagation. Irrigation water will be sourced from an onsite well. According to a well hydrologic connectivity report prepared by a professional engineering geologist, the well on the subject parcel has a minimal likelihood of being hydrologically connected in any manner that might significantly affect adjacent wetlands or surface waters in the vicinity. Estimated maximum annual water usage for the single 7-month harvest is approximately 80,000 gallons (8 gallons/SF/year), with peak monthly demands reaching 15,000 gallons/month June through August. Existing tank storage for irrigation total 16,000 gallons. Drying and seasonal cloning would continue in an existing 288 SF drying shed. Power is provided by one Honda 7000 generator housed in a noise limiting shed. The applicant would use generators for 100% of its energy needs until Pacific Gas and Electric connects to Cobb Road or a solar power system capable of supplying 80% of annual energy demands can be established. The project would utilize up to four seasonal employees during peak season to perform cultivation activities.
