The attached software license and support services agreement with JUMP Technology Services, LLC will allow the Humboldt County Department of Health and Human Services - Behavioral Health's ("DHHS - Behavioral Health") Older Adults program to continue managing case and registry data supporting Adult Protective Services, HomeSafe, In-Home Supportive Services ("IHSS") Registry and provider portal, including, without limitation, Structured Decision-Making ("SDM") methodologies. Adult Protective Services uses this database for taking reports of abuse and neglect of elders and dependent adults, cross-reporting to law enforcement and other agencies, and documenting investigations, case management, and assessments, and maintaining all case records. SDM is a decision-support system informed by research, policy, and best practices, and JUMP incorporates this tool at intake to determine case assignment and response. In-Home Supportive Services uses this

database to track care provider enrollment, obtain electronic signatures and provide online orientation videos, and the In-Home Supportive Services Care Provider Registry maintains the list of active care providers through this database.

It should be noted that the attached software license and support services agreement with JUMP Technology Services, LLC comes to the Board after the start date thereof due to inadvertent delays that occurred during the contract development process.

Accordingly, DHHS - Behavioral Health recommends that the Board approve, and authorize the Chair of the Board to execute, the attached software license and support services agreement with JUMP Technology Services, LLC regarding the provision, support and maintenance of an electronic case management system for the period of July 1, 2021 through June 30, 2023. It is also recommended that the Board authorize the DHHS - Behavioral Health Director, or a designee thereof, to execute any and all subsequent amendments to the attached software license and support services agreement with JUMP Technology Services, LLC, after review and approval by County Counsel, Risk Management and the County Administrative Office, in order to avoid any unnecessary delays in the provision, support and maintenance of the electronic case management system utilized by Adult Protective Services and In-Home Support Services.
