DISCUSSION:

Infant-Family and Early Childhood Mental Health curriculum addresses the social-emotional wellbeing of young children between zero (0) to five (5) of age and provides a framework of promotion, preventative-intervention and treatment approaches within the context of the child's relationship to their parents and/or caregiver. Providing behavioral health services to infants and young children is a skillset that requires specialized training. It is critical, in this time of development, to understand how to work in partnership with families so that children can access appropriate intervention and treatment for early recovery. Presently, there is a shortage of individuals trained in Infant-Family and Early Childhood Mental Health.

The Humboldt Infant-Family and Early Childhood Mental Health (IFECMH) Certificate Training Program was developed to increase workforce capacity to address the social and emotional needs of our young children and their families. The program is intended to train and support a qualified infant-family and early childhood workforce. Implementation of the Infant-Family and Early Childhood Mental Health Certificate Training Program will reinforce the community mission of establishing and maintaining programs that contribute to the health, safety and wellbeing of children living within Humboldt County. The attached professional services agreement with McKinleyville Community Collaborative will allow for the implementation of Infant-Family and Early Childhood Mental Health Certificate Training Program for the period of September 26, 2023 through June 30, 2024.

Accordingly, the Humboldt County Department of Health and Human Services - Behavioral Health (“DHHS - Behavioral Health”) recommends that the Board approve, and authorize the Chair of the Board to execute, the attached professional services agreement with McKinleyville Community Collaborative regarding the development of the Infant-Family and Early Childhood Mental Health Certificate Training Program for the period of September 26, 2023 through June 30, 2024. It is also recommended that the Board authorize the DHHS - Behavioral Health Director, or a designee thereof, to execute any and all subsequent amendments to the attached professional services agreement with McKinleyville Community Collaborative, after review and approval by County Counsel, Risk Management and the County Administrative Office, in order to avoid any unnecessary delays in the implementation of the Infant-Family and Early Childhood Mental Health Certificate Training Program.
