SOURCE OF FUNDING:

Applicant fees to Current Planning budget unit (1100277) provided the bulk of the funding for this application. At your Board's request, this project was modified to provide additional protection for potential future multi-family residential development at no cost to the applicant. The work associated with this project after the Jan. 10, 2023, hearing has no dedicated source of funding.

DISCUSSION:

This is a continuation of a public hearing that was held on Jan. 10, 2023. At that meeting, the Board of Supervisors directed staff and the applicant to work together to determine ways to encourage multifamily residential development on the subject parcels. The solution to this direction is to adopt a Qualified zoning ordinance (Overlay Zone) to principally allow residential development in the C-1 zone. This captures the Board's stated intent not to completely change direction on the applicant, at the last minute, but to provide an incentive for residential use of the property.

The Qualified zone can be combined with any principal zone to provide sound and orderly planning as well as indicate that specified principal permitted uses or conditional uses otherwise allowed under the principal zone may be limited and development standards/restrictions can be added, deleted, or modified to implement the General Plan or CEQA mitigation. The Qualified zoning ordinance will eliminate the standard code requirement that any residence on the parcels must have commercial establishments on the first floor.

The Qualified zoning ordinance will not affect the findings of the Initial Study/Mitigated Negative Declaration (MND) prepared pursuant to the California Environmental Quality Act. The MND that was prepared for this project (SCH# 2022070274) analyzed the project-specific impacts from this

application because these specific project impacts were not analyzed by the programmatic Environmental Impact Report (EIR) certified for the General Plan as they would not be authorized under the existing zoning that was considered under the programmatic EIR. Because the rezone is adding a Q that only further restricts the allowable uses within the existing zone, no additional impacts associated with the Q are expected.

FINANCIAL IMPACT:

Narrative Explanation of Financial Impact:

The cost for this item up to the Jan. 10, 2023 hearing is funded from applicant fees in the Current Planning budget unit 1100277. All costs subsequent to the Jan. 10, 2023 hearing has been done at no cost to the applicant per direction from your Board. This is approximately \$2,000 which has no current source of funding.

STRATEGIC FRAMEWORK:

This action supports your Board's Strategic Framework priority of supporting business, workforce development and creation of private-sector jobs .

OTHER AGENCY INVOLVEMENT:

None.

ALTERNATIVES TO STAFF RECOMMENDATIONS:

1. The Board of Supervisors may decide to deny the request for a General Plan Amendment and Zone Reclassification. Subsequently, the Conditional Use Permit and Lot Line Adjustment for the proposed development of the Lucas & Myrtle Mini-Storage Facility would not be authorized.
