SOURCE OF FUNDING:

Behavioral Health Fund (1180-425)

DISCUSSION:

In August 2015, the Center for Medicaid Services approved a section 1115 waiver allowing California to implement a demonstration project to dramatically expand, improve and reorganize its system for treating people with substance use disorder. This project became the Drug Medi-Cal Organized Delivery System (“DMC-ODS”) which was implemented in Humboldt County in 2020. The County of Humboldt and six (6) other counties have worked with Partnership HealthPlan of California to develop a Regional Model.

Under the Regional Model, participating counties delegate full administration of the DMC-ODS program, subject to various state and federal approvals, to Partnership HealthPlan of California. In the general financial structure of the Regional Model, each participating county will pay Partnership HealthPlan of California a single, per utilizer per month (“PU/PM”) rate in exchange for Partnership HealthPlan of California administering the mandated DMC-ODS services. Participating counties receive Federal Drug Medi-Cal reimbursement based on PU/PM. The County of Humboldt is contracted as a provider of DMC-ODS services through Partnership HealthPlan of California.

Since implementation of the Regional Model, Drug Medi-Cal beneficiaries have increasingly engaged in substance use disorder programs and services. This, in turn, necessitates a supplemental budget to accommodate increased expenditures for PU/PM services, administrative fees and room and board costs. Fiscal year 2022-2023 projected expenditures include supplemental invoicing of approximately One Million Dollars (\$1,000,000.00) from PHC for prior year services.
