To: Board of Supervisors

From: Agricultural Commissioner

Agenda Section: Consent

SUBJECT:

Approval of Cooperative Agreement No. 19-0267-021-SF Sudden Oak Mortality Regulatory Program Contract

RECOMMENDATION(S):

That the Board of Supervisors:

1. Approve Cooperative Agreement No. 19-0267-021-SF known as the Sudden Oak Mortality Regulatory Program contract with the California Department of Food and Agriculture;
2. Authorize the Chair to sign the original agreement, and direct the Clerk of the Board to return the signed agreement to the Agricultural Commissioner's office for further processing; and
3. Grant a waiver from the provisions of the Nuclear Free Ordinance.

SOURCE OF FUNDING:

California Department of Food and Agriculture (CDFA)

DISCUSSION:

The pathogen that causes the plant disease known as Sudden Oak Death (SOD), *Phytophthora ramorum*, has caused widespread die-off of several native tree species (Tan Oak, Coast Live Oak and Black Oak) in California and Oregon since it was first identified in the mid 1990's. In 2002, the

discovery of a SOD infestation in the Redway area caused federal and state quarantine restrictions to be placed on Humboldt County (California Code of Regulations, Division 4, Subchapter 6, Section 3700, & Code of Federal regulations, Section 301.92). Numerous host plants for SOD are important to the wood products and nursery industry. There are currently more than 120 plants regulated as hosts for SOD.

Through compliance agreements between plant products producers and Humboldt County, the SOD program provides a regulatory process that permits the movement of plants and plant products subject to state and federal SOD quarantines. Agriculture Department staff conduct regular surveys of local plant nurseries and collect plant samples for laboratory testing in order to determine that commercial plant products are free from the SOD pathogen. Through intensive visual inspections of host species and laboratory testing, the SOD program ensures that nursery stock, wood products, green waste and compost produced in Humboldt County are not responsible for artificially spreading the SOD pathogen. The entire scope of work conducted by Humboldt County to ensure producer compliance with SOD quarantines includes; quarantine enforcement, eradication, trace-forward/trace-back investigations, communication with industry, and training. The Agricultural Commissioner's Office receives annual subventions from CDFA to offset the local costs of enforcing certain state-mandated programs. Cooperative Agreement No. 19-0267-021-SF provides funding to Humboldt County for the Sudden Oak Mortality Regulatory Program.

The request for a waiver from the provisions of the Nuclear Free Ordinance is requested since the State of California will not modify its cooperative agreements to accommodate local ordinances.

FINANCIAL IMPACT:

There is no net cost to Humboldt County for the SOD regulatory program. All costs for personnel, mileage and supplies will be reimbursed by the agreement to fund 1100, budget unit 261. Cooperative Agreement No. 19-0267-021-SF provides \$16,823.48 for agriculture department activities related to the SOD regulatory program from July 1, 2019 to June 30, 2020. This item comes to your Board after the effective date of July 1, 2019, due to the time needed for processing and finalizing of the State Standard Agreement. The department's previously adopted budget for fiscal year 2019-20 populated revenue and expenditure accounts in anticipation of this agreement, therefore no supplemental budget accompanies this request. All costs associated with the SOD Regulatory Program are billed to CDFA on a monthly basis and payment is made in arrears to Humboldt County.

STRATEGIC FRAMEWORK:

This action supports your Board's Strategic Framework by enforcing laws and regulations to protect residents.

OTHER AGENCY INVOLVEMENT:

CDFA

ALTERNATIVES TO STAFF RECOMMENDATIONS:

Board discretion
