DISCUSSION:

The Board of Supervisors approved the Cannabis Personal Use Outdoor Ordinance No. 2523 on Oct. 28, 2014 and the Cannabis Dispensaries Ordinance No. 2554 on July 19, 2016 and directed staff to submit the coastal versions of these ordinances to the Coastal Commission for certification. County staff and Coastal Commission staff worked together to identify alternative language to address Coastal Commission staff concerns. On Aug. 7, 2019 the Coastal Commission approved those modifications. The Planning Commission reviewed and approved the proposed amendments on Sept. 17, 2019 and recommended the Board of Supervisors approve them as well. For the ordinance to become effective, those modified ordinances now need to be adopted by the Board of Supervisors and transmitted to the Coastal Commission for certification.

Staff believes the necessary findings can be made for the Board of Supervisors to adopt the proposed ordinances with the modifications approved by the Coastal Commission. The most significant modification suggested by the Coastal Commission would limit personal use outdoor cultivation to properties with an existing residence. This change is intended to better align the location of the cultivation site with the end consumer of the cannabis. The nature of the other changes made by the Coastal Commission did not change the regulatory intent or approach of the ordinances as crafted. Most of the changes are intended to increase clarity relative to regulations and policies specific to the Coastal Zone.

When they reviewed it at a public hearing on June 6, 2019 the Planning Commission asked some clarifying questions about the suggested modifications and after receiving the requested information from staff unanimously recommended approval by the Board. Their resolution is in Attachment 6.

FINANCIAL IMPACT:

Staff costs for preparation and review of the ordinance total approximately \$5,000 at the time this report was drafted. The salary funding for this work is included in the General Fund contribution to the Long Range Planning unit, 1100-282.
