A Special Permit for a continued cultivation of 8,375 square feet (SF) of outdoor cannabis with 1,195 SF of ancillary propagation. Cultivation will occur in hoop houses for a minimum of two years before permanent greenhouses are installed. Irrigation water is sourced via a rain catchment system located on the roof of the agricultural building. Drying and storage occurs onsite and all other processing and packaging will occur off site at a licensed processing facility. No power will be used for cultivation, though ancillary propagation will utilize power from P. G. & E. The proposed project also includes a Special Permit to reduce the required 600-foot setback from public lands.
