File #: 17561, Version: 1

Humboldt County Fair Association (HCFA) is seeking to modify a Conditional Use Permit which authorizes five (5) concerts and two (2) motorcycle racing events to be held each year at the Humboldt County Fairgrounds. The approved permit places limitations on event-related noise levels, including a 63-decibel limit on composite noise measured by averaging noise readings collected during a 24-hour period surrounding each event, as well as a 90-decibel instantaneous noise limit applied to all motorcycles participating in racing events. In their modification request, HCFA is seeking authorization to raise the 90-decibel motorcycle noise limit to 99 decibels to be consistent with common national testing standards for competition established by the American Motorcyclist Association (AMA). Analysis of the proposal's effect on composite noise levels has been performed by Whitchurch Engineering and has determined that composite noise will remain at or below the 63-decibel limit, even with the requested increase. To help reduce event-related noise, HCFA is now proposing: 1. creation of two (2) sound barriers during racing events, fashioned by temporarily placing tractor trailers or strawbales (or some combination thereof) adjacent to motorcycle acceleration zones; and 2. acoustic treatment of the internal wall of the grandstands using special materials designed to decrease reverberation. Under the approved permit, each "event" occurs within the course of a single day, and concerts cannot last longer than 2 consecutive days. An additional day of racing can be allowed if all the racing on that day is by electrical motorcycles, but in no case can the total amount of motorcycle racing exceed 4 days per year. Other types of motorsports events are prohibited, including (but not limited to): Tractor Pulls, 4x4 Trucks, Go Carts, and Monster Trucks.

1) Adopt the Supplemental Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program to the previously adopted Mitigated Negative Declaration prepared for the project, as described by Section §15164 of the State CEQA Guidelines; 2) make all of the required findings for approval of the modification of the Conditional Use Permit; 3) and approve the Humboldt County Fair Association Conditional Use Permit Modification as recommended by staff and subject to the recommended conditions of approval and mitigation measures.
