The previously approved 2,000 square foot operations building will become a commercial structure to conduct onsite processing and will also be relocated but the size remains the same. The previously approved 5,976 square feet of new mixed light commercial cannabis cultivation remain unmodified as to size and type but the cultivation area will be reconfigured. The water source of a disconnected well, the 119,800-gallon annual water budget, the number of employees, and power source of PGE with a generator for emergencies remain unmodified from what was approved under PLN-11927-ZCC. Water storage will be increased by the modification from 5,000 gallons to 15,000 gallons
