DISCUSSION:

The California Budget Act of 2022 provided \$300 million state general funds ongoing to California Department of Public Health (CDPH) starting in 2022-23 to support the public health infrastructure at the state and local levels. Of the \$300 million annual investment (also known as Future of Public Health (FoPH) funding), \$99.6 million is dedicated for state operations while \$200.4 million is

annually allocated to 61 local health jurisdictions (LHJs) for local assistance. Future increase of the funding would require legislative action.

The Future of Public Health (FoPH) initiative aims at transforming and modernizing California to be able to handle public health threats. The COVID-19 pandemic highlighted the critical role of public health systems, but also their understaffing, inadequate information technology systems, and lab capacity. Therefore, California has adopted a modified foundational public health framework addressing six (6) key service areas:

- Workforce Development, Recruitment, and Training
- Emergency Preparedness and Response
- IT, Data Science, and Informatics
- Communications, Public Education, Engagement, and Behavior Change
- Community Partnerships
- Community Health Improvement

CDPH allocated a total of \$938,349 to Humboldt County DHHS- Public Health and on November 11, 2022, approved our associated spend plan and scope of work which encompass various positions throughout the branch. The item before your Board today approves the attached supplemental budget.
