SOURCE OF FUNDING:

Mental Health Fund

DISCUSSION:

DHHS-MH applied for and has been selected to receive a grant from Mental Health Services Oversight and Accountability Commission (MHSOAC) for school-based mental health triage personnel. The grant funding supports the hiring of mental health personnel to provide triage services to children on school campuses who are experiencing or are at risk of experiencing a mental health crisis. Seven (7) of the grant supported personnel will be county staff, the remaining fifteen (15) grant supported personnel will be employed by school-districts.

Aside from the one (1) PTE county Supervising Mental Health Clinician and six (6) FTE county Mental Health Clinicians I/II; school-districts will hire one (1) Supervising K-12 Mental Health Coordinator, ten (10) K-12 Case Managers and four (4) K-12 Family and Child Support Coaches. Clinicians will be assigned to various regions of Humboldt County, and will primarily provide direct services to students requiring mental health interventions. Clinicians will team with K-12 Case Managers and K-12 Family and Child Support Coaches, and other county and school staff to provide comprehensive and coordinated services. Interventions provided will include assessment, individual/family/group counseling, treatment planning, crisis intervention, safety

planning, and psychoeducation/consultation.

Case Managers will support school administrators and staff; provide students, parents, and staff with information and referrals to support students' success, and provide information regarding students' goals and progress. They will assist students with academic, attendance, and/or behavioral issues including implementing student disciplinary services and assisting parents and students in locating services (e.g. counseling, resource and intervention referrals) to increase student success. Family and Child Support Coaches will provide peer-to-peer support and assistance to children and families who are dealing with their own or their child's mental health challenges. The Family and Child Support Coaches will bring real life experience to their jobs. The four coaches will serve the four most populated regions and work with the regional Clinician, Case Managers, and other DHHS, Humboldt County Office of Education (HCOE), and partner staff.

The grant requires formal collaborative partnerships and agreements will need to be executed and submitted to the grantor, formally solidifying the collaboration. The collaborative partners include the 31 independent school districts in Humboldt County.

FINANCIAL IMPACT:

The MHSOAC awarded a total of \$7,500,000 in funds to the Humboldt County DHHS-MH for school-based mental health triage personnel. The grant award will sustain this program for 48 months. The grant will fund salary and benefit cost for 7.0 FTEs: 1.0 FTE Supervising Mental Health Clinician and 6.0 FTE Mental Health Clinicians. Additionally, this grant award will fund consultation services provided by HCOE personnel.

Estimated salary and benefit cost of 6.0 FTE Mental Health Clinicians is \$594,105; salary and benefit cost for 1.0 FTE Supervising Mental Health Clinician is estimated to be \$110,696. School District consultation expenditure funded through the grant is estimated to be \$1,170,199. Supplemental budget request totals \$1,875,000 for FY 2018-19 DHHS-Mental Health Administration budget unit 1170-424 and includes increased appropriation in salary and benefits, and professional services.

DHHS plans to sustain the program by means of effective use of Medicare/Medicaid billing and health care reform opportunities such as expanded benefit enrollment strategies; cross-agency financing strategies and opportunities for redirection and maximizing federal match in Medicaid.

This request supports the Board's Strategic Framework by providing community-appropriate levels of service and creating opportunities for improved safety and health.
