A Conditional Use Permit for an existing 15,000 square foot outdoor commercial cannabis cultivation operation. Annual irrigation water usage is approximately 148,700 gallons. Water for irrigation is sourced from a 645,000 gallon rainwater catchment pond. Two hard water tanks store an additional 5,700 gallons. Power is sourced from solar panels with battery storage and a portable generator. Plants will be dried and cured in the barn on-site. Additional processing will occur at a licensed off-site facility. Cultivation will be conducted by the owner's family members who live on-site.

Find the project exempt from environmental review pursuant to Sections 15301 of the State CEQA Guidelines, make all of the required findings for approval of the Conditional Use Permit based on evidence in the staff report and any public testimony, and adopt the Resolution approving the proposed Robert Trell Messenger project subject to the recommended conditions.
